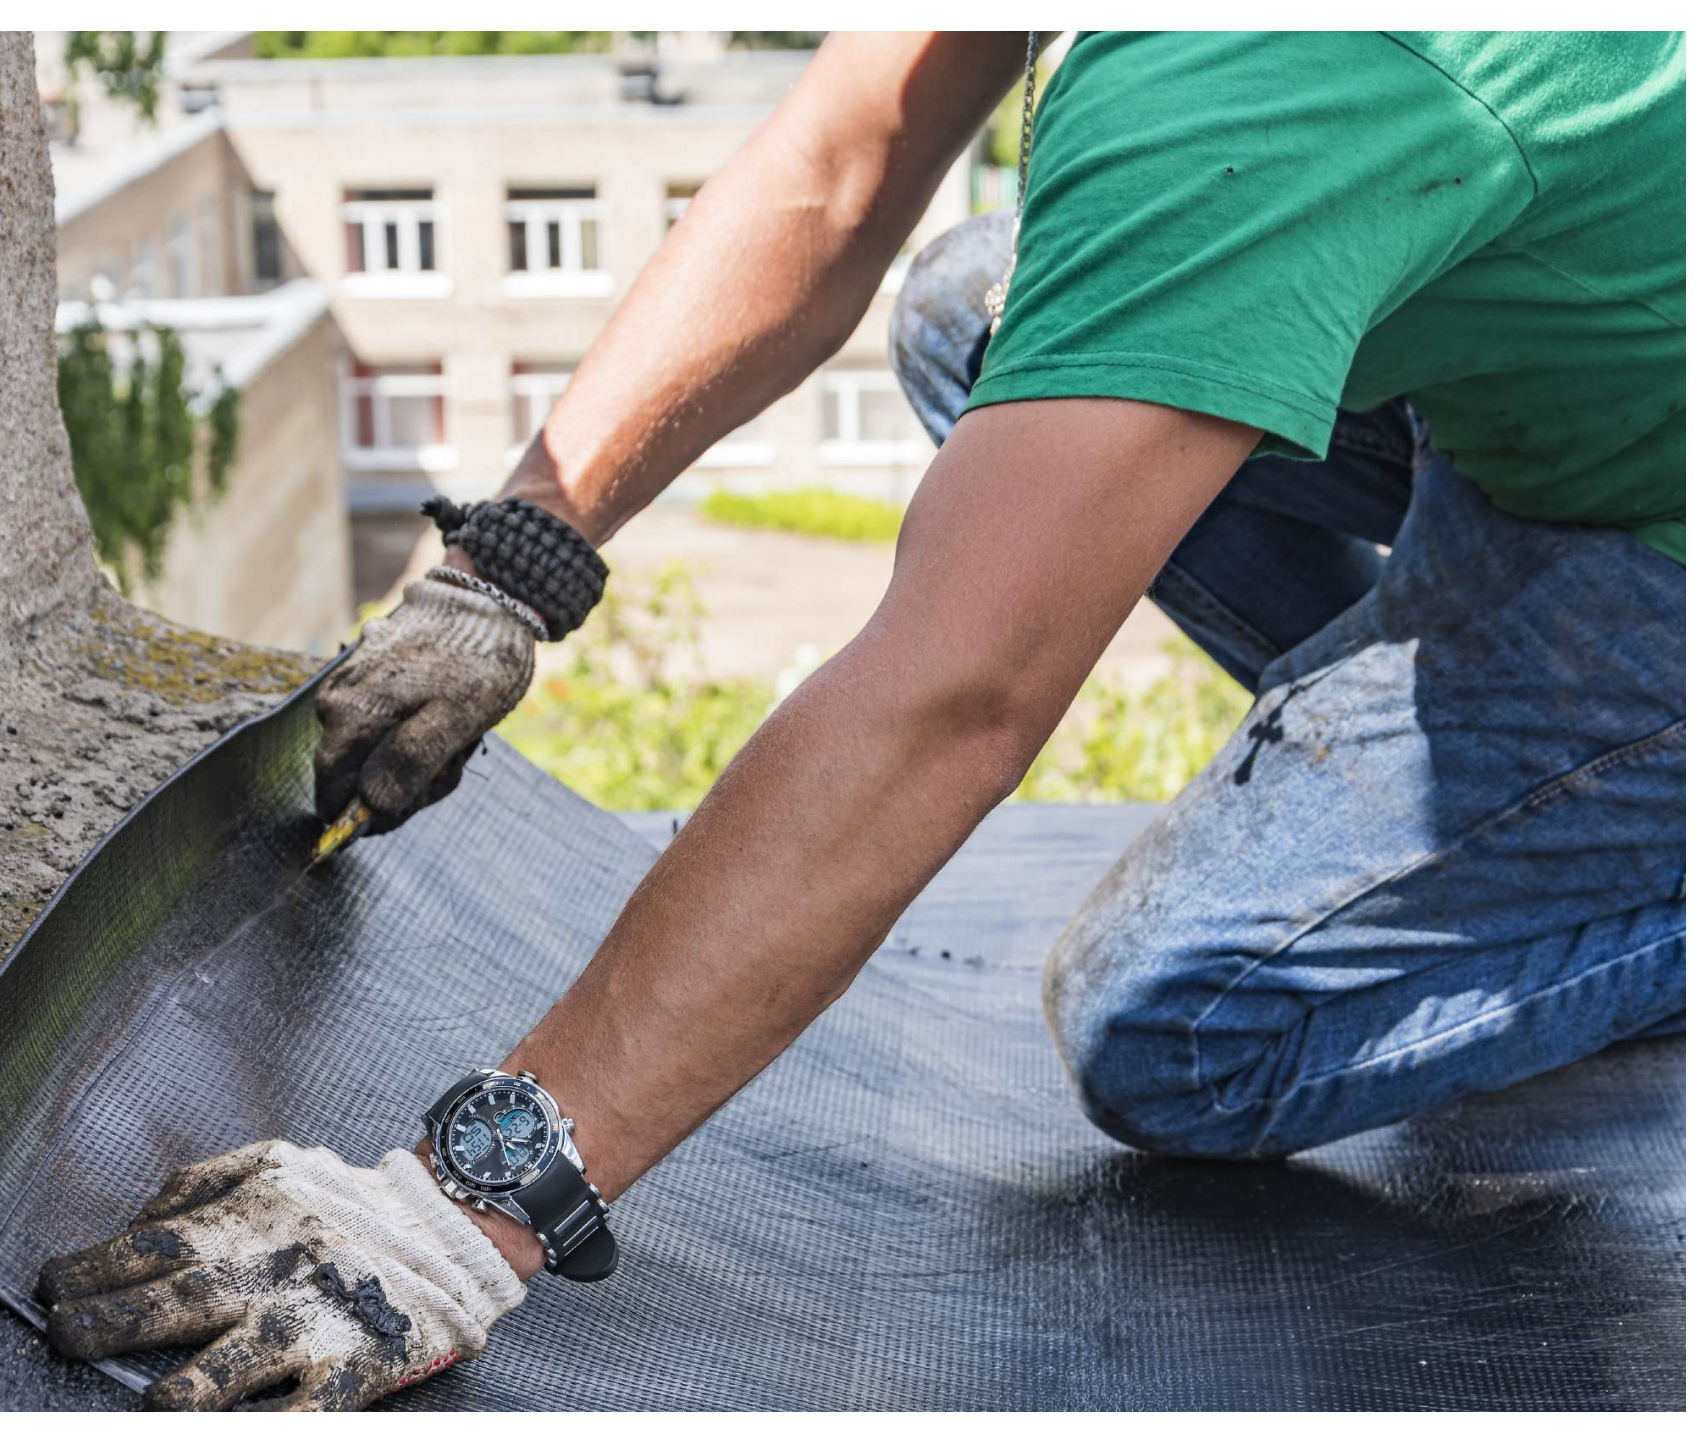
ABOUT

New View Roofing

New View Roofing is a veteran-owned company specializing in residential, commercial, and industrial roofing services across the North Dallas-Fort Worth area. With over 25 years of combined experience, the team is known for quality workmanship and dependable service, delivering roofing solutions built to last.

> **“Beam AI has eliminated our extra time associated with multiple revisions. This has saved me 30-60 minutes per project.**



Breaking Down the Key Wins

With Beam AI, New View Roofing has revolutionized its estimating workflow:

KEY WINS

/1 **Saved 2 hours per takeoff –** Time per takeoff reduced from 2–3 hours to just 30 minutes.

/2 **10X more bids submitted –** Mike has been able to place significantly more bids.

/3 **Eliminated 30–60 mins of revision work per project –** Uploading revised sheets triggers automatic change detection, saving manual effort.

CHALLENGES

Before integrating Beam AI, New View Roofing faced multiple challenges in its estimating and bidding process:

/1 **Earlier estimators spent 2–3 hours per takeoff using manual takeoff methods.**

/2 **Results obtained by manual takeoff software were not accurate, and constant double-checking was required.**

/3 **Revisions required additional time spent on comparing sheets.**

BUSINESS IMPACT

The adoption of Beam AI has led to measurable business growth:

Increased bid throughput – Mike can now bid 10X more projects.

Positioned for future revenue growth – Mike expects measurable growth.

More time to pursue bigger projects – Faster takeoffs allow more strategic focus and opportunity pursuit.

FINAL WORD

> *“I would strongly recommend trying Beam AI. Give them a couple of projects and you’ll see right away how easy it is to use. Beam AI has exceeded my expectations and addressed every issue and question promptly.”*
