ABOUT

JZ Demolition

JZ Demolition specializes in interior and total demolition projects, focusing on commercial, industrial, institutional, and government construction across the South Florida region. With over 40 years of leadership experience in both public and private sectors, the Hispanic-owned company is known for its precision, professionalism, and a diverse workforce committed to safety and operational excellence.

With Beam Al, we are saving 4-6 hours a day while doubling our weekly bid output.

Breaking Down the Key Wins

By adopting Beam AI, the team at JZ Demolition made a clean break from inefficiency:

KEY WINS

especially on days with multiple proposals.

Saved 4-6 hours a day,

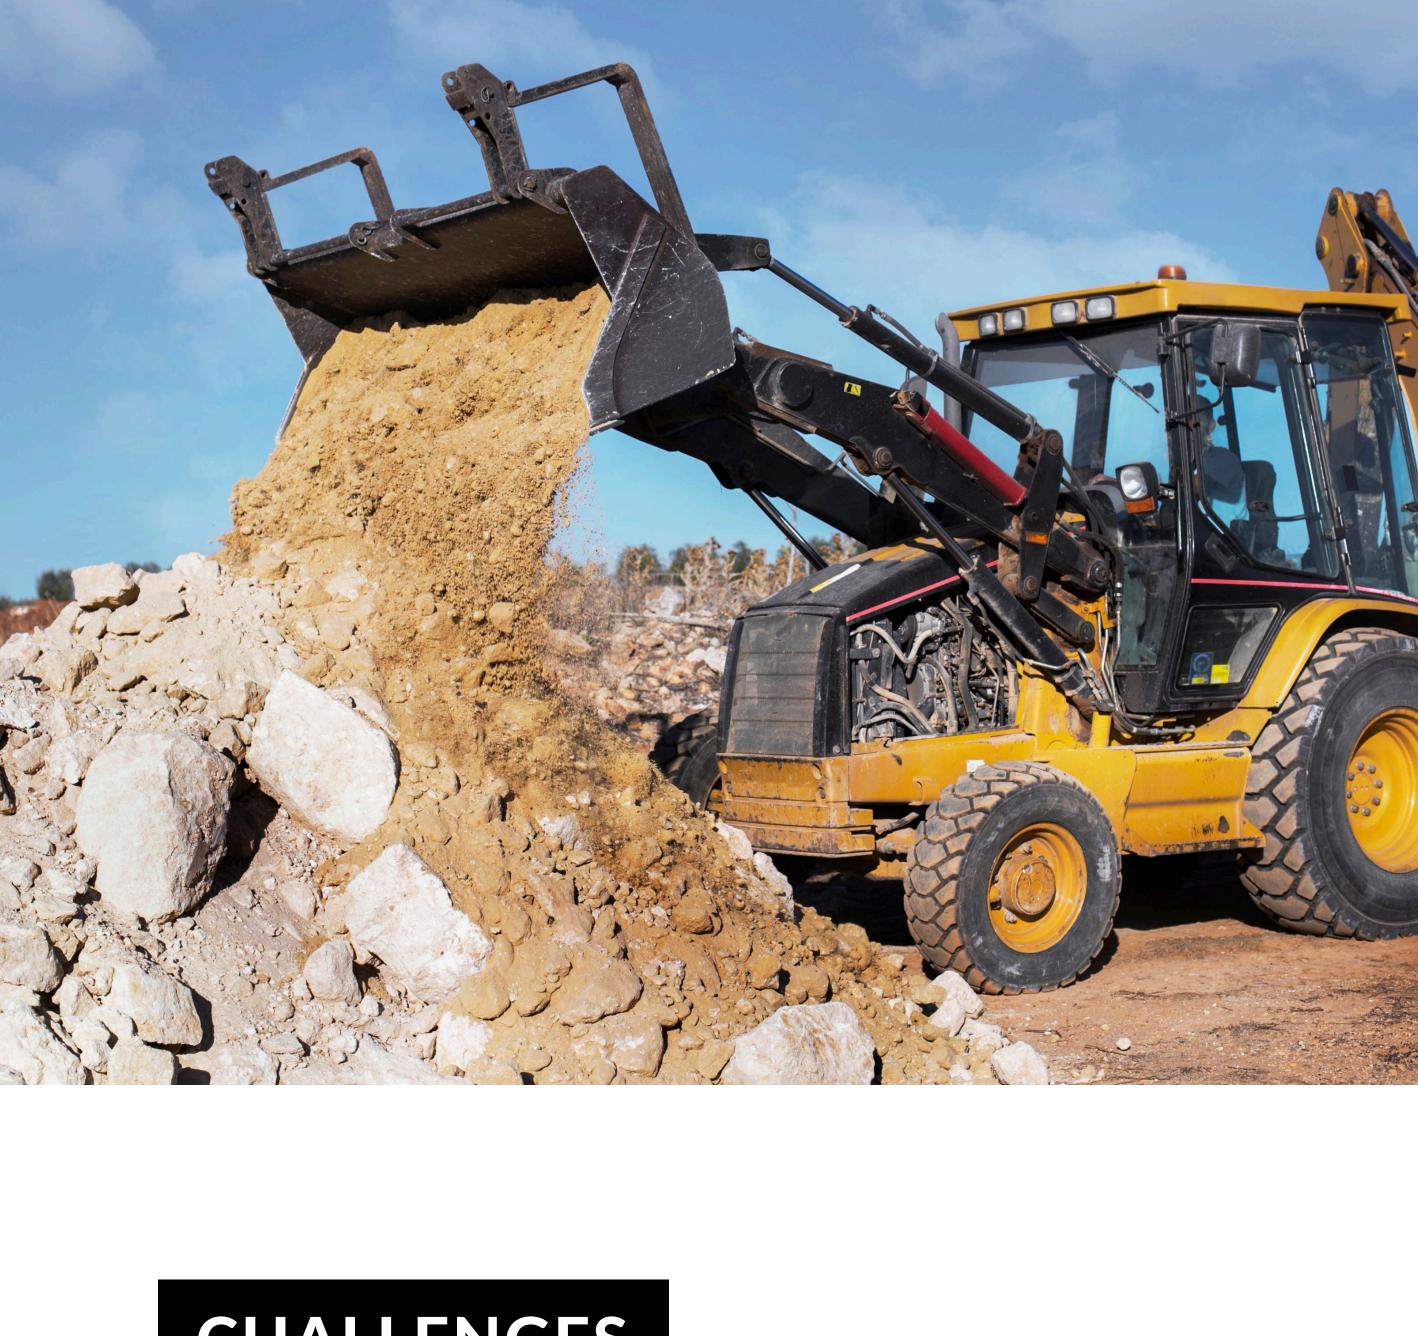

Chris now able to respond to nearly every opportunity.

Doubled weekly bid output, with

Enabled real-time customer engagement, jobsite visits, and new client acquisition.

Auto-detection of spec details and wall heights eliminated the need for frequent site visits.

Efficiently handled revisions and addenda, saving hours on plan comparisons.

CHALLENGES

Before adopting Beam AI, JZ Demolition's estimating process was manual, slow, and resource-intensive:

proposals. Used manual workflows,

which slowed down turnaround on

Takeoffs consumed 3-5 hours per job,

with added time for budget sheets and

larger-scale projects.

time-consuming, limiting bandwidth for new bids.

Estimates were accurate but

Client interactions and job site visits took a backseat due to desk-heavy workflows.

BUSINESS IMPACT

Since switching to Beam AI, JZ Demolition has accelerated both estimating and revenue growth:

Bids are submitted faster, with higher confidence.

Business grew from \$1.6M to a projected \$3M, thanks in part to increased bid volume.

Revisions are quicker, with less

manual effort for tracking changes.

Customer service from Beam Al is standout, enabling fast, customized support.

FINALWORD

Beam AI has completely changed how I work - more time for clients, less time stuck in takeoffs. It's intuitive, fast, and a

must-have for any estimator

managing multiple projects 11
