Case Study with

Breaking Down the Key Wins

By adopting Beam AI, the team made a clean break from inefficiency:

KEY WINS

Saved 4-6 hours a day, especially on days with multiple proposals.

Enabled real-time customer engagement, jobsite visits, and new client acquisition.

Auto-detection of spec details and wall heights eliminated the need for frequent site visits.

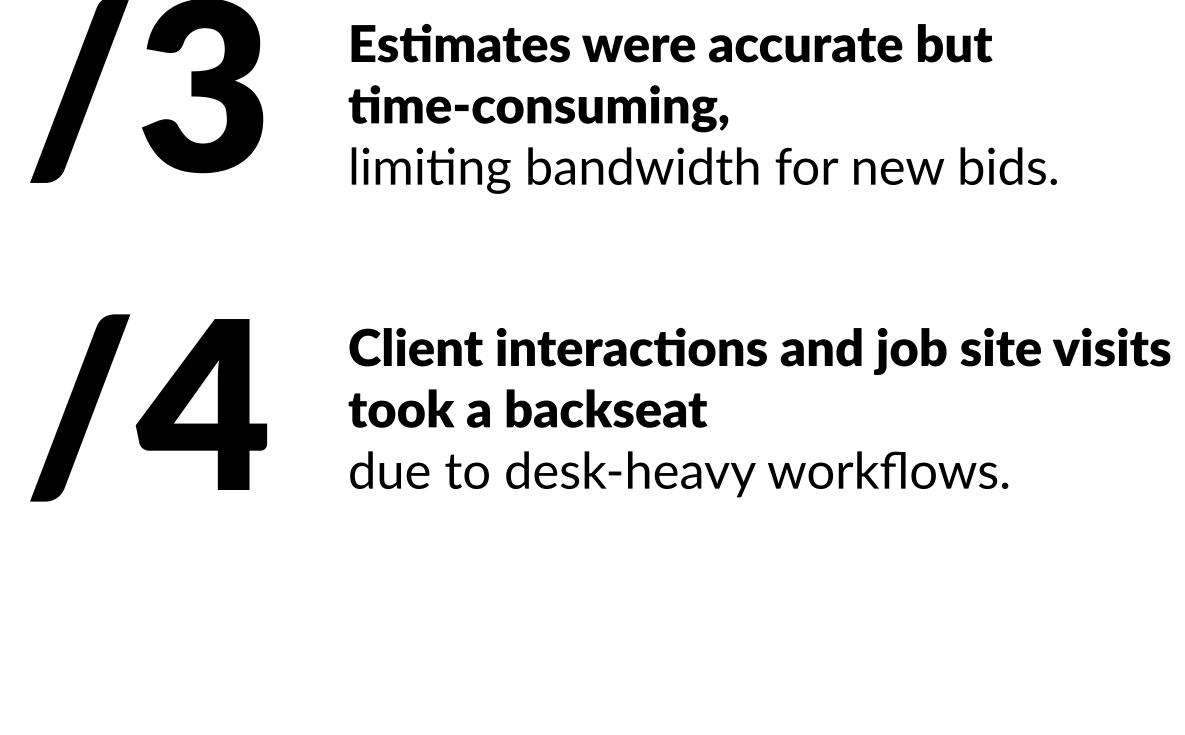

Efficiently handled revisions and addenda, saving hours on plan comparisons.

Case Study with Beam AI Takeoffs

Call us +1 (269)-468-0815

Before adopting Beam AI, estimating process was

Used manual workflows,

larger-scale projects.

Takeoffs consumed 3-5 hours per job,

with added time for budget sheets and

which slowed down turnaround on

manual, slow, and resource-intensive:

proposals.

CHALLENGES

BUSINESS IMPACT

estimating and revenue growth:

Switching to Beam AI has accelerated both

Bids are submitted faster, with higher confidence.

Business grew from \$1.6M to a projected \$3M, thanks in part to increased bid volume.

Revisions are quicker, with less

manual effort for tracking changes.

FINAL WORD

Customer service from Beam

Al is standout, enabling fast,

customized support.

Beam AI has completely changed how I work - more time for

clients, less time stuck in takeoffs. It's intuitive, fast, and a must-have for any estimator managing multiple projects 11
