Beam AI Partner Program
Lead the future of Preconstruction with AI-Based Takeoffs

The Problem with Estimating Workflows Today

10–40+ hours per project spent on manual or semi-automated takeoffs

Limited bid capacity and missed deadlines mean lost revenue

High-impact tasks like getting better pricing, value engineering, and risk reviews, takes a back seat to tracing PDFs

Our Trusted Partners

Trusted by top consultants, resellers, and technology partners across construction.

THE NET EFFECT — CONTRACTOR ADVISORS INC.
