

AzLE Portfolio E

EGP Money Market Fund

Investment Objective

The investment manager will maintain low - medium duration for the portfolio within the range of 140 – 150 days which should provide a competitive net of fees and tax overnight return. The portfolio will maintain its strong liquidity position which will help to meet volatile redemptions.

The portfolio will invest mainly in money market instruments with the aim to generate above average returns. Investments in money market instruments will be done through:

An active selection of a range of investments including treasury bills, sub-one year bonds and deposits.
