

MyChart Parent Access

for Teens Ages 12–17

MyChart Proxy Account helps families manage children's health while protecting their privacy.

✓ What can parents access?

If your child is **11 years old or under**, the parent or legal guardian is granted FULL access to MyChart.

If your child is **between 12 and 17 years old**, your MyChart proxy account is only limited to:

Messaging care team

🔒 Why is access limited?

To ensure compliance with **federal HIPAA regulations and NYS privacy law**, proxy access will automatically become limited when a child turns 12 years old.

This helps support confidential care for teens while allowing parents to continue managing important aspects of their child's care.

☎ Have questions about your teen's care?
