Nau mai, haere mai The University of Auckland English Language Academy welcomes you

As New Zealand's leading university-operated English language centre, ELA is closely connected to the academic life of the University of Auckland. Our programmes are designed to support students as they begin their university studies, and our long-standing record reflects a strong focus on academic readiness, progression, and success. Studying at ELA means becoming part of a university that is consistently ranked among the world's top 100.

At the centre of our work is a commitment to developing students as confident, globally competent communicators. Our courses strengthen academic English, communication skills, and critical literacy, helping students participate fully in university learning and engage effectively in international and professional environments. This learning is supported by a highly experienced teaching team who understand both language development and the expectations of study in a New Zealand tertiary setting.

Learning at ELA extends beyond the classroom. Students are encouraged to take an active role in the academic community, learn alongside peers from a wide range of linguistic and cultural backgrounds, and make the most of the wider opportunities available at the University of Auckland. These experiences play an important role in students' academic and personal development.

We look forward to welcoming you to the English Language Academy and supporting your pathway into university study.

Director – English Language Academy

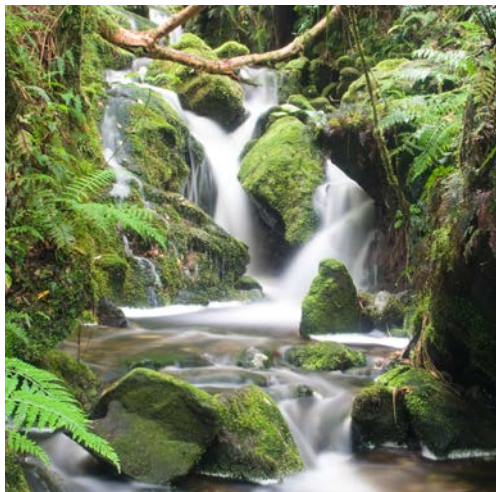

Aotearoa, New Zealand

New Zealand is a modern, English-speaking country with a rich culture, known internationally for its beautiful natural landscapes and the culture of its native Māori people.

Located in the South Pacific Ocean about 2,200km east of Australia, New Zealand has two main islands – the North Island and the South Island. Similar in size and shape to the United Kingdom or Japan, New Zealand has a relatively small population of around 5 million people, making it one of the least crowded countries in the world.

New Zealand has been strongly influenced by Māori culture, its historic links as a British colony and by more recent migration mainly from Asia and Pacific Island nations. New Zealand people have a reputation for being warm, welcoming and friendly to visitors.

I enjoyed school-organised activities like hiking trips, and campus tours. Joining these events helped me make new friends.

One of my favorites was Meet2Chat, where we practiced English through fun discussions with local university students. I believe choosing ELA was a good decision. Though you might encounter several challenges as you study abroad, I'm sure you can get over them with great support from teachers and staff.”
