

Thor 4420

Hole Punching & Clinching System

Thor features a high-efficiency pneumatic system (30% less air usage) and is 100% manufactured in our Ontario facility. This machine comes in two standard sizes but can be customized to your needs.

No additional compressor capacity needed

Our systems use 30% less air than most clinchers. This allows you to add a machine without upgrading your compressor capacity.

Simplified design for lower costs

Compact design, non-adjustable tooling, 4-Ton Maximum, standard lower arm design, simplified controls save costs.

High-Efficiency Power System

Uses 30% less air than most clinchers. This allows you to add a machine without upgrading your compressor capacity.
