

Thor Letter

Desktop clinching machine

Our desktop version of the Thor is our smallest clinching machine, making it ideal for smaller spaces. Mount Thor to any surface for a secure stand, and move the machine around as needed.

No additional compressor capacity needed

Our systems use 30% less air than most clinchers. This allows you to add a machine without upgrading your compressor capacity.

Perfect for small spaces and products

The desktop version easily mounts to any surface and is the perfect solution for clinching thinner or smaller products.

Modular design adapts to future production runs

You can adapt the Thor's dies and punches to clinch a range of materials with varying thickness or size.

Unmatched support and service

Phone support from 7 a.m. to 5 p.m. EST.
