STATEWIDE RISC

Resources to Access Shared Data for Assessment

Illinois Youth Survey	This resource has data for youth regarding substance use rates, mental health, home health, etc. There are county and state reports available.	https://iys.cprd.illinois.edu/results/county
County Health Rankings Data	This resource had data for each county in Illinois that reflects health factors and outcomes in comparison with the state.	https://www.countyhealthrankings.org/health-data/illinois/data-and-resources
Illinois School Report Card Data	This resource has data for every public school district in the state regarding truancy, graduation rates, demographics, low-income students, and more.	https://illinoisreportcard.com
IPDH Opioid Data Dashboard	This resource has data broken down by county concerning the number of overdose deaths, drug trends, naloxone distributions, and more.	https://illinois-doit-prod-idph.amsadobe.com/topics-services/opioids/idph-data-dashboard/overdoses.html
US Census Data	This resource can provide data on population and various demographics, including health, economic, housing, etc.	https://www.census.gov/quickfacts/fact/table/US/PST045221
DOPP Provider Data	There are DOPP providers across the state which can provide free naloxone to their assigned communities. This contact could provide data regarding how much naloxone has been distributed.	https://www.dhs.state.il.us/page.aspx?item=137653
Other data that can be collected via local partnerships	• Treatment Center Data (ex. # of clients, demographics, potential drug trends) • Drug Court or Judicial Data (ex. # of people in the drug court program or # of cases related to substance use) • EMS Data (ex. # of calls related to substance use, # of nonfatal overdoses) • Coroner Data (ex. # of overdose deaths and substances involved) • Law Enforcement Data (ex. # of calls or arrests related to substance use) • Local Health Department Data (ex. Data for their IPLAN related to substance use)
