

Inside Dubhe 2026: a renewed successful event bringing partners closer to the company.

Candiolo, 07/04/2026

On **March 26 and 27, 2026**, **Dubhe** welcomed clients and partners to its locations in Piemonte for a new edition of *Inside Dubhe*, an event designed to promote a direct understanding of the company's operations.

The initiative brought together participants from **the Triveneto, Umbria, and Toscana regions**, along with export clients from **Romania**, confirming the group's ability to build strong relationships both nationally and internationally.

The program began with a visit to the **two Carmagnola plants**, dedicated to engine grinding, end-of-life engine refurbishment, and new engine assembly. Guests then visited **Dubhe's headquarters in Candiolo**, gaining firsthand insight into the company's operational activities, internal organization, and the teams working across different departments.

A particularly significant contribution came from partners **Elring** and **BorgWarner**, who played a key role in the event with their technical and commercial support. Their presence added value, strengthening discussions on topics central to the industry's evolution.

Alongside professional aspects, ample attention was given to relationship-building and the local territory. The event concluded in the stunning **Langhe area**, with a sunset at the Belvedere della Morra and a tasting of local products, offering a moment of sharing in a setting that embodies excellence and tradition.

Inside Dubhe proved to be an important occasion for meeting and exchanging ideas, helping to consolidate the relationship between the company, its clients, and partners.

Through initiatives like this, **Dubhe** continues its growth journey, focusing on collaboration, innovation, and constant attention to its commercial partners and market needs.
