

A range of lock options are available for our lockers, so you can choose the security level that suits your space.

A

Mechanical Combination Lock

A rotary combination dial lock offering keyless, code-based security. No keys to lose or replace.

B

Digital Keypad Lock

An electronic push-button keypad lock for fast, code-based access with a modern finish.

C

Combination Padlock

A user-programmable combination padlock, ideal for flexible, everyday locker security.

E

Swivel Latch Lock

A keyed swivel latch lock offering a simple, durable locking mechanism.

Please note: some locks may not be compatible with every locker design. Our sales team will be happy to help with any questions regarding lock compatibility.
