SUMMARY

Entry-level game designer with a passion for creating quality video games. Capable of working hard to meet the demands of tasks across various game genres and handling different types of game design, including:

- UI/UX Design.
- System Design and Balancing.
- Dialogue and Storytelling within the game world.
- Level Design: layout of maps, placement of objects, and challenges within those maps.

EDUCATION

University of Economics and Finance

Bachelor's Degree in Software Engineering

Cumulative GPA: 3.67/4.0

Ho Chi Minh city
Sep 2019 - Aug 2023

EXPERIENCE

Imba

Game Designer

Kawaii Fishing Together (shipped 2022):

- **Explored AI ideas** that could be applied to in-game NPCs, including chatting and reality simulators to help players improve their knowledge about this game or in their lives, etc.
- **Developed unannounced NPCs** with their profiles and appearances; updated a few released NPCs' profiles based on existing profiles and wrote their backstories.
- **Updated the game design document and UX** by designing three released features: Like, Visit and Rate Houses; and one unannounced system.
- **Enhanced maps** by adding new decorations and adjusting some objects' positions; designed new NPCs' houses for released features.
- **Added SFXs** for player behaviors, and home background music.

Ho Chi Minh city
Sep 2023 - Nov 2023

Wolffun Game

Unity Game Developer Intern

Thetan Rivals (shipped 2023):

- **Learned about the Photon framework** for creating online multiplayer games with Unity, as well as how to build a game in the Cloud using Azure.
- **Updated UI and its flow** based on designer's feedback using DOTween.
- **Developed a 3D personal project** in Unity C# using ScriptableObjects to easily create various clones, AI NavMesh for enemy path finding.
