

# The Professional Work Chat App

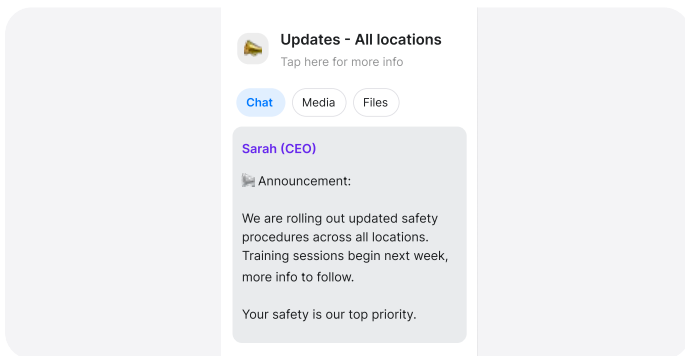

Move your team into a professional work chat app that provides structure and control, while being as easy as texting.

- ✓ Stop the chaos of scattered groups
- ✓ Gain visibility, compliance, and peace of mind
- ✓ Communication for the entire organization

4.7 | 4.8 | 4.9 | 4.9

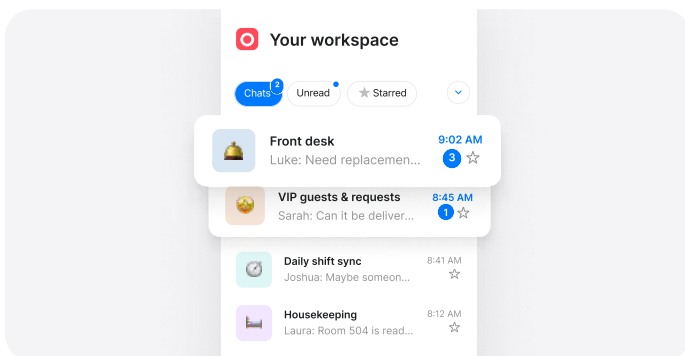

## Why Teams Are Switching to Zenzap

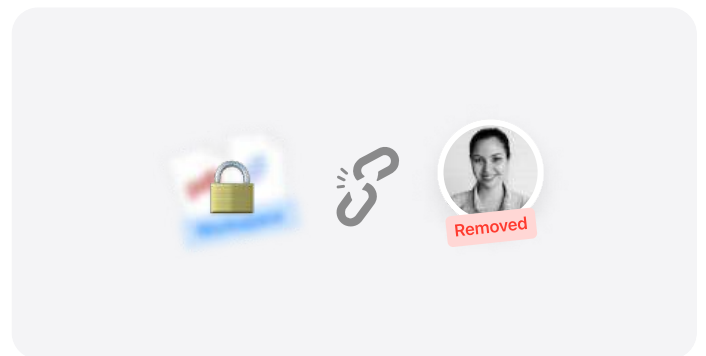

### Standardize Culture Everywhere

Align communication across every site, shift, and role. Ensure consistency and visibility without needing advanced technical knowledge.

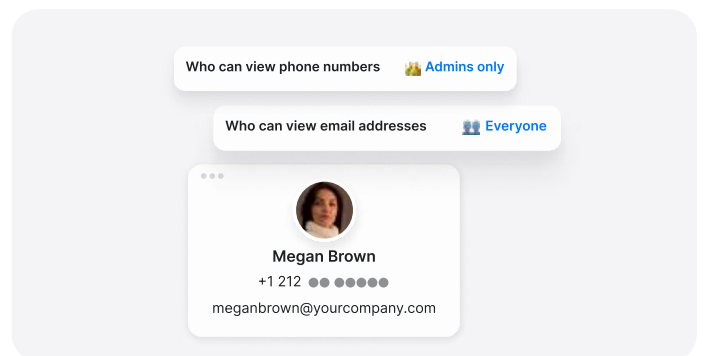

### Avoid Scattered (Mis)communication

Align communication across every site, shift, and role. Ensure consistency and visibility without needing advanced technical knowledge.

### Prevent Poaching

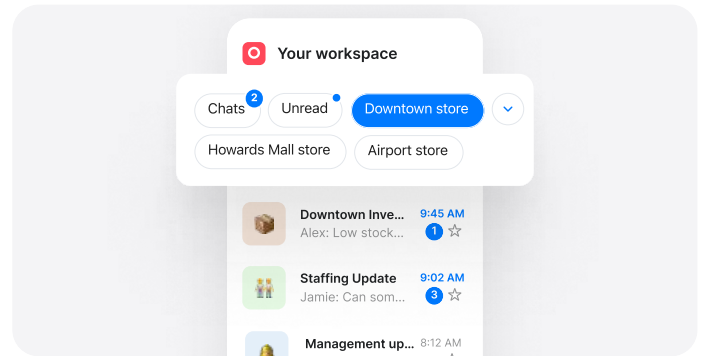

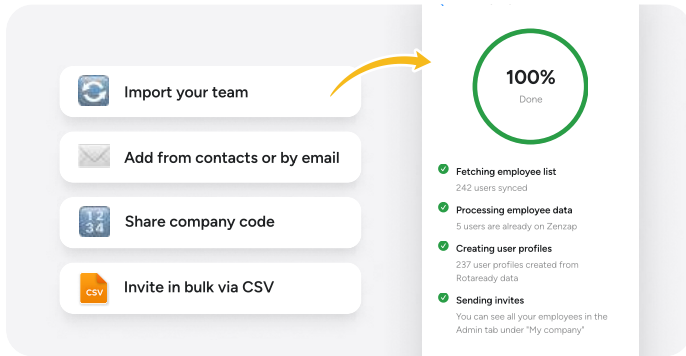

Revoke access as soon as an employee leaves. Prevent ex-employees from using group chat info to recruit your staff and protect your IP.

### Separate Work from Personal Life

Professionalize your communication to prevent HR disputes. Hide personal phone numbers and protect your staff from harassment risks.

# Organize Your Team's Internal Communication

## No Complicated Rollout

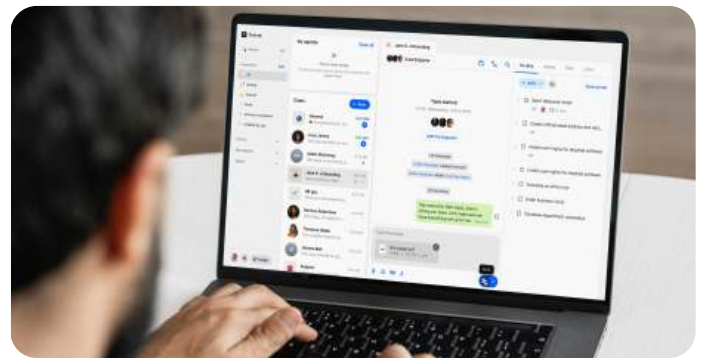

Whether you run 5 locations or 50, Zenzap is easy to implement across your entire team, with one-time, seamless company onboarding.

## Organization-Wide Alignment

Keep everyone from leadership to frontline teams aligned and connected with secure, structured communication.

## Audit-Ready Compliance

Protect your business from compliance breaches with audit logs, role-based permissions, and HIPAA and GDPR support.

## Where Work Actually Happens

Handle shift swaps, daily updates, and staff issues in one auditable place. If it's not on Zenzap, it didn't happen.

## What Our Customers Say

“  
It's intuitive, it does what you hope it would do, great app, really easy and simple.”

**Bal Mahey**  
Operation Director at Auden Hospitality

“  
If you're using other comms channels, I think you'll find that Zenzap will save you a lot of money.”

**Chris Fletcher**  
Founder & CEO at Tech on Toast

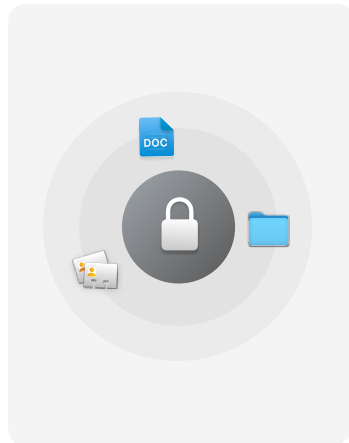

“  
Zenzap is no hassle messaging and flexible teamwork for any organization.”

**Torrin Wilkins**  
Director at Centre Think Tank

# Professional Standards. Built-in Security.

Zenzap prioritizes your business's security, with BYOK, SOC2, and GDPR compliance to ensure your data stays private.

## Company-Level Encryption

Organization data is protected with Tenant-Level Encryption (TLE).

## Audit Logs

Full audit logs are available upon request to support legal needs.

## Role-Based Permissions

Use granular admin controls to define who can do what.

## Full Data Ownership

All files and conversations are company-owned and stored in the cloud.

# Built for Managers. Loved by Teams.

Get your team up and running in minutes
