

FOUNTAIN LIFE™

Executive
Health Solutions.
Real ROI.

FountainLife.com

We believe your Executives' most productive years are still ahead, so we combine the most advanced diagnostic technologies, AI-powered insights, and Restorative Therapeutics to help you not only extend Executive longevity—but enhance your organization's ROI year after year.

What you invest in Executive Health today *fuels ROI tomorrow*

You already invest in growth, innovation, and leadership. But the most significant multiplier of business success is the energy, clarity, and vitality of your people. When your Executives perform below their potential, it doesn't just slow them down—it slows your entire organization.

71% of all lost productivity stems from
presenteeism—employees working while unwell.

\$575B lost annually
to preventable illness.

-2% average stock price drop following Executive
illness announcements.

Imagine what happens when your top performers operate at their peak every day. That's not just wellness—it's leverage, and unbeatable ROI.

Why optimizing Executive Health matters

Preventable health issues cost U.S. companies over \$575 annually in lost performance and momentum – while companies that invest in proactive health solutions experience exponential returns.

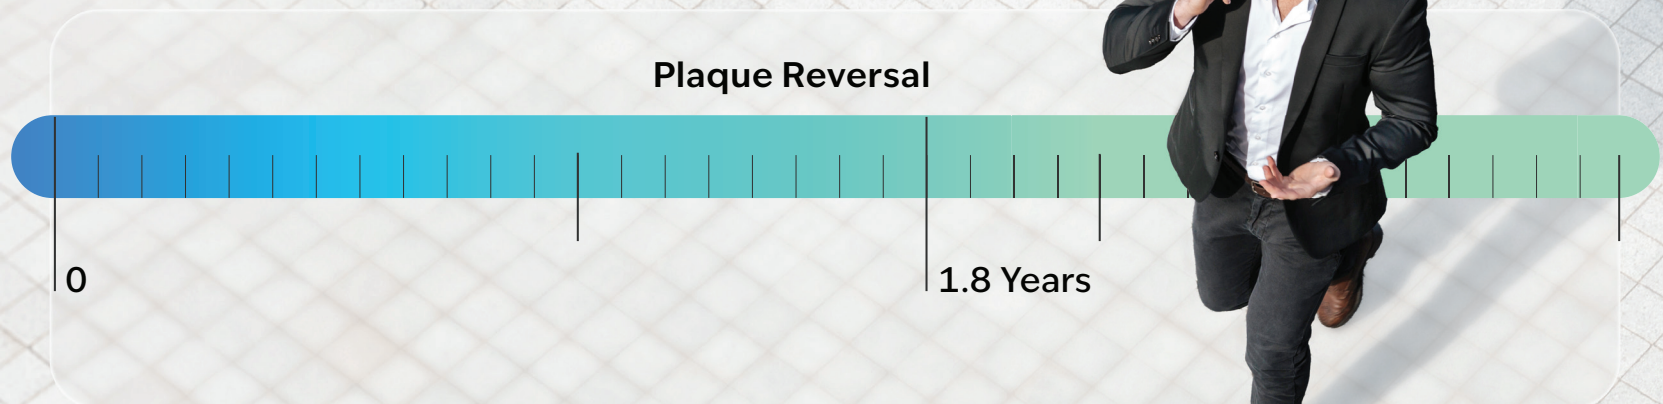

+21% productivity increase in organizations
with strong wellness cultures (*Infeedo AI, 2025*)

\$3.27 saved in medical costs and \$2.73 in absenteeism savings
for every \$1 invested in wellness (*Harvard Meta-Analysis, 2025*)

3.6×ROI for employer preventive
health programs (*FitOn Health, 2024*)

Fountain Life's Executive Health solutions move well ahead of traditional medicine to find what others miss. We deliver unparalleled value through a dual approach of early disease detection and proactive health optimization.

Our AI-Guided Diagnostic capabilities represent a 4x improvement over standard cancer screening rates, while our optimization programs achieve measurable health improvements in 80% of our Members.

12% of members achieve significant plaque regression (>20mm decrease) within 1.8 years

The Fountain Life *advantage.*

Fountain Life transforms corporate health programs from a cost center to a performance multiplier, driving quantifiable health, productivity, and longevity gains that traditional wellness programs cannot match.

Outcomes, drawn from our CORE and APEX Member data, demonstrate the measurable impact of precision prevention and optimization.

3.5%

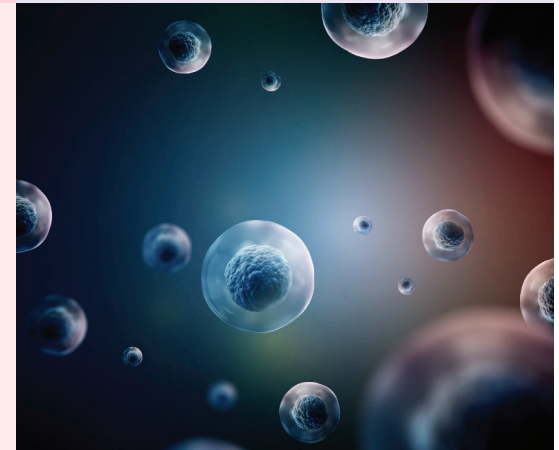

aneurysm detection—
*conditions not screened
elsewhere*

3%

cancer detection
rate (*4× standard
programs*)

14%

of Executives
identified with actionable,
life-threatening conditions

96%

of these cases
detected *before symptoms
appear*

Detection *excellence*

We find what others miss

Fountain Life’s advanced imaging, AI-Guided Diagnostics, and whole-body assessment reveal risk factors **up to 8 years earlier** than symptom-based medicine.

Capability	Standard Programs	Fountain Life	Advantage
Cancer Detection	0.5 -1%	3%	4x Better
Aneurysm Screening	Not Available	3.5%	Unique
Health Optimization	10 -15%	80%	5-8x Better
Timeline to Results	Annual Reviews	1.3-1.8 Years	Measurable Outcomes
ROI	2-3:1	13:1	Exceptional Value

We improve what others accept

Our optimization platform delivers measurable results across multiple physiological systems, reversing aging markers and restoring resilience within months.

Cardiovascular Optimization

Neurological Enhancement

Metabolic Restoration

Nutritional Optimization

Cardiovascular Optimization

12% of members achieve significant plaque regression (*>20mm decrease*)

Timeline: **1.8 years** for measurable improvement

Represents actual reversal of cardiovascular disease, not just prevention

Neurological Enhancement

56% improvement in deep white matter lesions within **1.3 years**

46% achieve brain age improvement, reversing accelerated aging

Demonstrates potential for cognitive decline prevention

Metabolic Restoration

52% complete liver fat normalization

Profound implications for diabetes prevention

Reverses metabolic dysfunction rather than just detecting it

Nutritional Optimization

63% achieve normal nutrient ranges within **1.6 years**

Comprehensive wellness enhancement

Foundation for sustained health improvements

Annual Financial Impact *(per 1,000 Members)*

Early disease treatment savings: \$2.45M

Advanced disease cost avoidance: \$8.9M

Productivity preservation: \$1.65M

Long-term healthcare savings: \$3.2M

Wellness optimization ROI: \$2.1M

Total net annual benefit: \$20M+

13:1 ROI over 10 years

We turn
insight into
measurable
ROI

Fountain Life
generates exceptional
ROI through combined
cost reduction/avoidance
and productivity
enhancement:

Annual Financial Impact *(per 1,000 Members)*

Financial Component	Annual Value	Supporting Data
Screening Program Investment	-\$1,500,000	Comprehensive screening program
Early Disease Treatment Savings	\$2,450,000	Cancer / aneurysm early intervention
Advanced Disease Cost Avoidance	\$8,920,000	14% actionable findings prevented complications
Productivity Preservation	\$1,650,000	Asymptomatic detection maintains workforce
Wellness Program ROI	\$2,100,000	63% nutrient optimization + 52% liver improvement
Long-term Healthcare Savings	\$3,200,000	Compound benefits over 5-10 years
Quality of Life Value	\$1,800,000	Brain health + cardiovascular improvements
Reduced Absenteeism	\$450,000	Healthier workforce participation
Enhanced Performance	\$950,000	Optimized cognitive and physical performance
Total Annual Benefit	\$20,020,000	13.1 ROI over 10 year period

Health economic *benefits*

Our Executive Health solutions deliver measurable economic value across prevention, treatment, and performance outcomes, turning early detection into cost savings and productivity gains. For example, cancer caught early costs 70% less to treat and yields up to 9× productivity recovery value compared to late-stage detection.

Economic Benefit	Value / Outcome
Cancer treatment costs	2-4× reduction through early intervention
5-year survival rates	>90% for early-stage vs. 10-15% for late-stage cancer
Cost per life saved	\$13,400 based on screening investment
Healthcare utilization	Reduced by 40-50% through early detection and preventive measures
Productivity enhancement	Improved performance preserves \$1.65M per 1,000 members annually
Insurance premium impact	Reduced premiums from improved population health metrics
Quality-adjusted life years (QALYs)	Significant increase due to optimized health outcomes and longevity
Long-term savings horizon	\$3.2M+ over 5-10 years from sustained health improvement

The complete *health transformation* timeline

Members experience measurable change within 1.3–1.8 years, achieving both immediate detection value and sustained health optimization. Fountain Life's longitudinal tracking ensures continuous performance improvement over time, translating into healthier, more productive Executives and measurable ROI for organizations.*

From identifying silent conditions to achieving measurable, sustained improvement, every stage of the Membership delivers quantifiable impact, both medically and organizationally.

*Based on Fountain Life's actual clinical outcomes data and represents real-world results from The CORE Experience and APEX Membership programs.

Health Transformation Timeline

Journey Stage	Detection Outcomes	Optimization Outcomes	Member Experience
Baseline Assessment	100% comprehensive screening	Baseline health metrics identified	Comprehensive health insights
Early Detection Phase	14% actionable findings identified	Risk factors identified	Peace of mind through detection
Intervention & Treatment	99% asymptomatic interventions	Targeted improvement protocols	Expert medical coordination
Health Optimization Phase	Prevented disease progression	43-63% achieve significant improvements	Visible health improvements
Continuous Monitoring	Ongoing surveillance	Sustained health enhancement	Proactive health partnership
Long-term Outcomes	Lives saved and extended	Enhanced longevity and vitality	Optimized healthspan and lifespan

Executive Health Memberships that optimize your ROI. *Guaranteed.*

Exclusive packages available by enrolling five or more employees.
Choose from the CORE Experience that prevents the preventable or
APEX Membership that unlocks elite performance and longevity.

CORE fortifies health. APEX perfects it.

CORE

The *Essential* Executive Experience

For Executives who need proactive health assurance and prevention, CORE identifies hidden risks early, builds resilience, and maintains consistent, high-level performance.

**Comprehensive diagnostics:
full-body MRI, cardiac, metabolic, and
neurocognitive screening**

Advanced biomarker and nutrient analysis

**AI-powered insights to optimize focus,
energy, and recovery**

APEX

The *Premier* Executive Experience

For leaders seeking the pinnacle of performance and longevity, APEX goes beyond prevention to precision-guided optimization.

All CORE benefits plus genomic and epigenetic mapping

Continuous AI-based biomarker monitoring and longevity coaching

Exclusive access to Fountain Life medical advisors and optimization tools

The Fountain Life promise

With detection rates 4x higher than standard screening and optimization success in 80% of Members, Fountain Life transforms group benefits from a cost center to a strategic investment in organizational resilience and human performance.

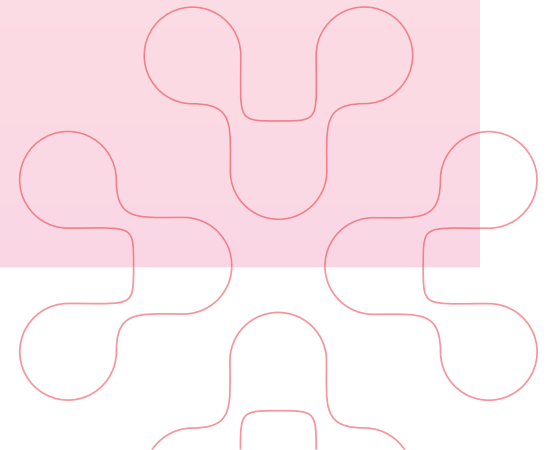

We find what others miss: 14% actionable findings in asymptomatic members

We improve what others accept: 80% achieve measurable health optimizations

We deliver results: Documented improvements within 1-2 years

We measure what matters: Quantified biomarker enhancements

We turn insight into measurable ROI: Combined cost reduction and productivity enhancement

The combination of detection excellence and optimization success creates an unmatched value proposition delivering \$20+ million in net benefits per 1,000 Members annually, with a 13:1 ROI over 10 years.

In other words, Fountain Life offers the most comprehensive, measurable, and impactful Executive Health program available.

*Based on Fountain Life's actual clinical outcomes data and represents real-world results from The CORE Experience and APEX Membership programs. Financial projections are conservative estimates based on documented health outcomes and established healthcare cost data.
