

# ENERGY & SUSTAINABILITY CONFERENCE 2025

---

## EU POSTER EXHIBITION

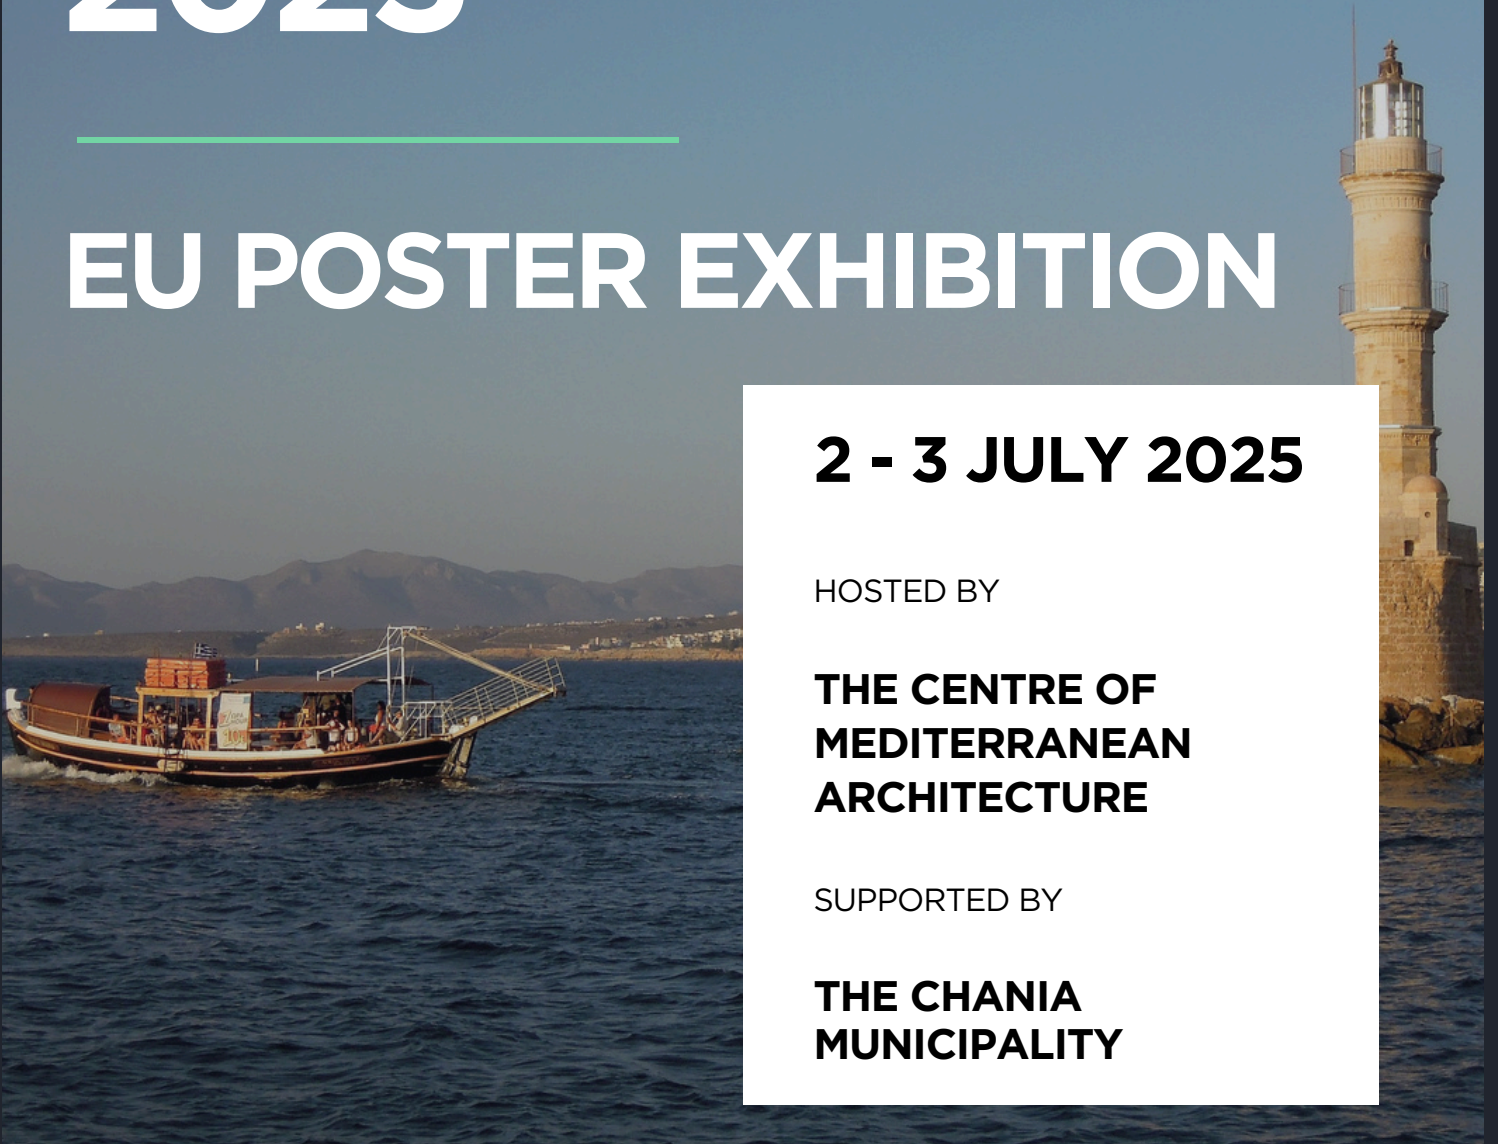

**2 - 3 JULY 2025**

HOSTED BY

**THE CENTRE OF  
MEDITERRANEAN  
ARCHITECTURE**

SUPPORTED BY

**THE CHANIA  
MUNICIPALITY**

# OUR SUPPORTERS

The Energy and Sustainability conference 2025 which took place under the SHERLOCK framework was supported by:

Co-funded by  
the European Union

ΔΗΜΟΣ ΧΑΝΙΩΝ  
MUNICIPALITY OF  
CHANIA • CRETE

We would like to thank the Centre of Mediterranean Architecture & the Municipality of Chania for hosting the conference and all of us.

## OUR EUROPEAN CORNER

### Poster exhibition

We had the pleasure of welcoming nine inspiring European projects from the energy, building, and innovation sectors — and beyond!

Their posters were showcased in the Glass Room, the second building of the Centre of Mediterranean Architecture, creating a dedicated space for discovery and exchange.

Throughout the event, conference participants, CAM visitors, and local citizens explored the vision & key outcomes from the featured projects:

RES4CITY, nZEBRA, FACILITA, RESSKILL, LOW2HIGH, ECOPRENEURS, FASHION UP, PROENGANT, and COLLECTIEF.

# RES4CITY & NZEBRA

RES4CITY: Upskilling students and members of the workforce to prepare for the green transition, in support of a low carbon economy. Find out more

nZEBRA: Empowering professionals and Master's students in architecture, civil and energy engineering to design innovative solutions for climate-neutral buildings. Find out more

# FACILITA & ECOPREUNEURS

FACILITA: Creating and operating a regional One-Stop-Shop (OSS) in each of these three Spanish regions: Extremadura, Madrid and Valencia. Find out more

ECOPREUNEURS: Focusing on environmentally friendly topics and causes and aiming to do business in a way that benefits the environment. Find out more

# LOW2HIGH & RESSKILL

Low2High: Developing methodologies for the integration of low-grade energy sources into high-temperature district heating networks. Find out more

RESSKILL: Supporting a sustainable future for the European Union by upskilling the workforce in renewable energy system integration and digitalisation within the building sector. Find out more

# COLLECTIEF & PROENGAT

COLLECTiEF: Using Collective Intelligence to improve building energy performance and contribute to global climate and energy goals. Find out more

ProEnGaT: Enhancing trainees' access to the European labour market by strengthening their skills, promoting entrepreneurship, and fostering European cooperation in Gastronomy Tourism. Find out more

# FASHION UP

FASHION UP: Innovating the craft tailoring sector promoting the Fashion Upcycling and supporting self-employment initiatives in this area.. Find out more

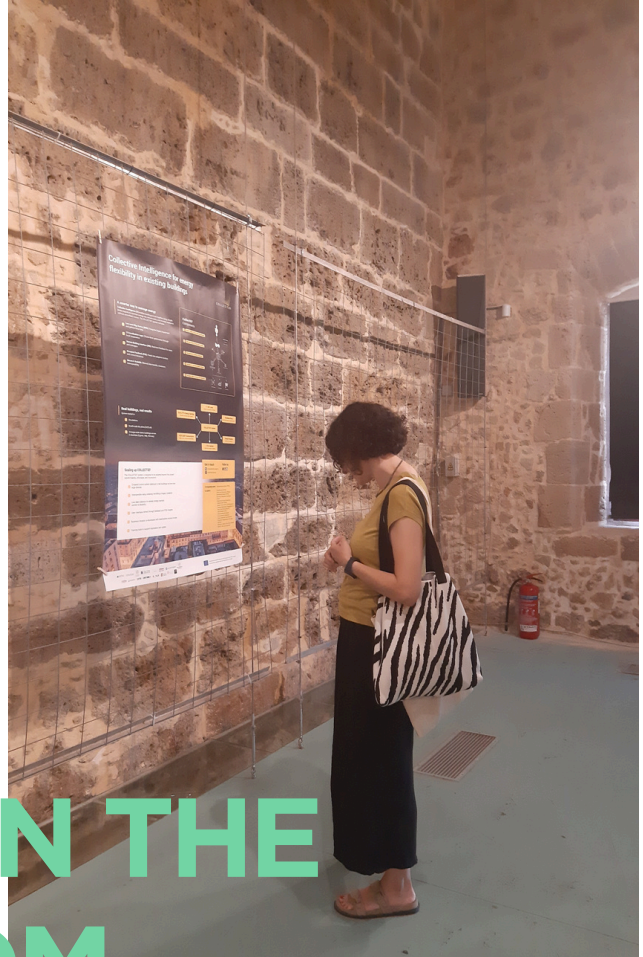

## 9 EU funded projects

featured in our EU corner

## 4 different sectors

energy, building, tourism & fashion

# MOMENTS IN THE GLASS ROOM

# Are you ready for the Energy & Sustainability Conference - Part II?

## See you next summer in Lisbon!
