CRACKLE COLLECTION

“THE BEAUTY OF REFRACTION
REFLECTION & DISPERSION”

EN: We are proud to introduce our new Crackle Crystal collection. Continually innovating we have developed and finally realized our long term ambition of a crystal that refracts light. Creating not only a beautiful ambient glow but also a stunning focal point within the crystal itself, with every colour of the light spectrum. As the light moves through crackled facets it is scattered and fractured, creating a wonderful sparkle. Our craftsmen handwork each and every piece to get the optimum light refraction meaning no two crystals are the same.
