Past performance is no guarantee of future results. There is a risk that invested capital may be lost. Performance is shown gross and net of fees. <sup>1</sup>September 1, 2020 through December 31, 2020.

## Characteristics

	LCV	R1V
Number of Holdings	44	870
EV / EBITDA <sup>1</sup>	13.0	13.6
Price / Earnings (Ex Negative Earnings)	20.5	21.1
Price / Book	3.09	3.01
Price / Cash Flow	15.3	16.4
ROE % (5 Yr Avg)	22.6	18.2
EPS Growth % (5 Yr)	13.0	10.8
LT Growth Estimate % <sup>2</sup>	10.9	9.3
Weighted Avg Market Cap (\$B)	105.68	401.29
Cash %	1.8	
Dollar Turnover % (3 Yr Avg) <sup>3</sup>	76.2	
Active Share % (Since Inception)	90.8	

<sup>1</sup>EBITDA excludes banks, thrifts, and insurers. <sup>2</sup>Estimates based on ordinary shares for all ADR securities held. <sup>3</sup>Average calendar year turnover. Dollar turnover, the lesser of purchases or sales as a percentage of the average market value, is presented as an average of all portfolios in the composite. If one portfolio is not in the composite for the entire period, turnover is the average annualized turnover of all portfolios in the composite at the end of the period.

## Risk Statistics (5 Yr)

	LCV	R1V
Annualized Standard Deviation	14.69	14.55
Jensen Alpha %	4.35	
Beta	0.96	
Upside Market Capture %	103.02	
Downside Market Capture %	83.22	

Characteristics and risk statistics are shown gross of fees and do not reflect the deduction of all fees and expenses that a client has paid or would have paid. Refer to the composite gross and net performance to understand the overall effect of fees.

## FOR PROFESSIONAL INVESTORS ONLY

## Investment Strategy

River Road's Large Cap Value (LCV) strategy utilizes a bottom-up, fundamentally driven investment approach to identify high quality companies trading at attractive discounts.

Strategy assets: <sup>1</sup>	\$34MM
Inception date:	September 1, 2020
Investment style:	Large cap, value
Benchmark:	Russell 1000 Value
Target # of holdings:	40-50
Min market cap (at initial purchase):	\$3B
Max position size (at strategic purchase):	6%
Max industry weight (including appreciation):	30%
Max cash weight:	5%

Investment guidelines are working policies and subject to change without notice. Positioning is subject to portfolio manager discretion and may include positioning outside the stated limits depending on market conditions and other factors. Monitoring of investment guidelines is based on River Road's processes and data sources. <sup>1</sup>Total assets include assets under management as defined by GIPS® and advisory-only assets.

## Investment Objective(s)

- Outperform the benchmark by +200 to +400 bps (gross of fees) annualized over a market cycle
- Achieve objectives in a manner that is consistent with established style and risk expectations

## Portfolio Managers

Contributors are shown gross of fees and do not reflect the deduction of all fees and expenses that a client has paid or would have paid. Refer to the composite gross and net performance to understand the overall effect of fees. Top 10 holdings reflects percent of total portfolio. GICS sector breakdown reflects percent of total portfolio; stocks without a reported sector are not presented. Index data source: London Stock Exchange Group PLC and its group undertakings (collectively, the "LSE Group"), © LSE Group.

**Compliance Statement:** River Road Asset Management, LLC ("RRAM") claims compliance with the Global Investment Performance Standards (GIPS®). A GIPS Report is available upon request by contacting RRAMCompliance@riverroadam.com. **Composite Description:** The Large Cap Value composite contains fully discretionary accounts that seek long-term capital appreciation by investing primarily in 40 to 50 equity securities that trade at a discount to our valuation as determined using RRAM's proprietary Absolute Value® approach. The composite may also be invested in Real Estate Investment Trusts (REITs), publicly traded partnerships, investment companies, convertible securities, and foreign stocks. **Benchmark Description:** The official benchmark for the composite is the Russell 1000 Value index. All other indices are shown for additional information only. Composite performance may differ materially from the indices as the composite only invests in a subset of the securities contained in the indices and also invests in securities not contained in the indices. **Performance and Fees:** The U.S. dollar is the currency used to express performance and includes the reinvestment of income. Composite performance is presented gross of foreign withholding taxes on dividends, interest income, and capital gains. All composite performance is after the deduction of trading costs. Net of fee performance is calculated using actual management fees. For periods including non-fee paying accounts, net is calculated for those accounts by applying the highest fee schedule effective at that time. Unless otherwise noted, performance provided for periods greater than one year is annualized. **Trademark:** GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein. **Holdings:** The information provided in this report should not be considered a recommendation to purchase or sell any particular security. There is no assurance that any securities discussed herein will remain in our portfolio at the time you receive this report or that securities sold have not been repurchased. Characteristics and sector weightings of our portfolio are shown and may not be indicative of this strategy's current or future investments. It should not be assumed that any of the holdings discussed herein were or will be profitable or that the investment recommendations or decisions we make in the future will be profitable or will equal the investment performance of the securities discussed herein. This information is shown as supplemental information only and complements the full disclosure presentation. **Characteristics:** Unless otherwise noted, share-related characteristics are provided by FactSet. Portfolio and index characteristics are based on companies' most recent filings as of this report date (values for many companies may be as of the prior period). Most company share-related characteristics exclude outliers. Outlier exclusion methods include interquartile and inverse interquartile; the universe for determining outliers is the Russell 3000. For more information, please contact RRAM. **Attribution:** Sector, Industry Group, Industry, or Sub-industry group levels are determined at the beginning of each month according to the Global Industry Classification Standard ("GICS"), developed and exclusively owned by MSCI Inc. ("MSCI") and Standard & Poor's Financial Services LLC ("S&P"), unless otherwise stated that they have been reclassified or classified by RRAM. Reclassifications/classifications by RRAM are not supported by S&P or MSCI. All GICS data is provided "As Is" with no warranties. RRAM may classify securities that are not automatically classified by MSCI and S&P. **Contribution:** Top and bottom contributors are calculated gross of fees for the most recent quarter and based on portfolio contribution to active return, which is calculated as the portfolio-weighted return relative to the overall index. For the purpose of assessing top and bottom contributors, the contribution of child securities is aggregated with that of the parent for corporate actions that occurred during the most recent calendar quarter. The holdings identified do not represent all of the securities purchased, sold, or recommended. To receive information regarding the methodology for calculating the top/bottom contributors or a list showing every holding's contribution to the overall composite and/or representative portfolio performance contact RRAMCompliance@riverroadam.com. **Representative Portfolios:** Unless otherwise noted as composite, the information presented is based on a representative portfolio. If no single representative portfolio is available to represent the strategy since inception, different representative portfolios and/or the composite are used for different periods to create a continuous representative portfolio. The representative portfolio is selected by the firm as a representative account that is deemed to best represent this management style using a pre-defined, objective set of criteria. All representative portfolio data is shown as supplemental information to the composite presentation. Each client portfolio is individually managed and may vary from the information shown for the representative portfolio.
