

Legal-Grade AI For Title And Survey.

Orbital Copilot helps you move faster through core diligence tasks—like reviewing title commitments, validating legal descriptions, and drafting title objection letters—so you can focus your legal expertise where it matters most.

How Real Estate Teams Use Orbital Copilot

- ➔ **Partners.** Validate red-flagged issues, provide strategic input, and deliver clear, visually-supported guidance to clients.
- ➔ **Associates and Paralegals.** Conduct initial analysis, identify key risks, and produce high-quality drafts without relying on time-consuming manual processes.
- ➔ **Legal Assistants.** Upload source materials, run reports, and assist with exporting AI drafts throughout the review.

“Orbital Copilot has elevated the way our real estate team collaborates”

— Wallace Schwartz, Real Estate Partner at **Vinson & Elkins**

Efficient Document Intake

Upload title commitments, surveys, and supporting documents. Orbital Copilot reads, retrieves and classifies all materials. It even converts low-quality scans or handwritten notes into legible, searchable text.

Move Through Review With Ease

Automatically surface red flags, summarize key information, and draw connections across materials. Citations link each issue directly to its source—so you can move faster, with full context.

First Drafts in Minutes, Not Days

Generate editable drafts of issue lists, title objection letters, and title memos—based on your review and deal context. Edit and track changes in-platform, export to Word, and send to clients without starting from scratch.

Gain Ground-Level Clarity

View sites on a map, layering in tax parcels and surveys to get a clear visual read. Capture screenshots for inclusion in client-ready reports.
