Educators in Industry

Principal/Program Administrator Confirmation

Program Expectations

Educator will:

- ✓ Learn up-to-date job competencies, technical requirements, and industry trends directly from local employers.
- ✓ Build a stronger ability to connect academic concepts to the modern workforce, helping students see the *why* behind their learning.
- ✓ Self-assess current technical skills and curriculum in relation to regional workforce demands and future teaching assignments.
- ✓ Foster long-term collaboration between the school site, the educator, and industry host.
- ✓ Adhere to all host-site safety regulations, dress codes, and strict confidentiality/privacy protocols.
- ✓ Provide a completed program summary, a minimum of 5 high-resolution photos of the experience, and a timesheet signed by the industry host upon completion of the hours.
- ✓ Create and submit a comprehensive lesson plan based on the experience.
- ✓ Share workforce insights and the developed curriculum with school site peers or department team members.
