Looks like the verification link you used has expired. We can send the link again.

Resend verification link

After Sign In, there will be the page to choose account type

There are 5 account types in ISSA Hub: **Explorer, Student, Instructor, School, Trainer**

**Explorer and Student** accounts serve the same core function but are intended for users at different stages of their sailing journey.

- The **Student account** is designed for users who are already in contact with a sailing school and know which course they want to join.
- The **Explorer account** is for users who are still considering their options, haven't chosen a course yet, or don't have access to a sailing school in their area.

Registering as an Explorer or Student will suit the needs of most users.

**Instructor Account:** For users who hold an ISSA Instructor license and actively work as sailing instructors. This account allows them to manage sailing courses within the ISSA Hub.

**School Account:** Intended for sailing schools that employ ISSA-certified instructors. Schools can create and manage sailing courses in the ISSA Hub.

**Trainer Account:** Reserved for a select group of users authorized to manage ISSA Instructor training programs.

The fastest way to register an account is through your **social media account**. This **skips the email confirmation** step and takes you directly to selecting your account type.

## #1 Basics of VHF communication

0% COMPLETE

Let's start

Basic rules

Communication participants

VHF radio communication basics

Channel basics

## In this course you will learn:

- 1 The rules and regulations you need to follow.
- 2 The types of conversations you are allowed to have.
- 3 What radio communication is.
- 4 How to identify your station (Maritime Mobile Service Identity).
- 5 Which radio channels to use for specific situations.
- 6 How effective radio communication works.

The online training courses are fully optimized for mobile devices.

ISSA Hub

## In this course you will learn:

- 1 The rules and regulations you need to follow.
- 2 The types of conversations you are allowed to have.
- 3 What radio communication is.
- 4 How to identify your station (Maritime Mobile Service Identity).

ISSA Hub

To begin with, it is worth realizing that the word **station** does not refer to the radio itself, but to the **unit** where any transmitting and receiving (or combination of them) device is installed and used.

**For example, if we have a radio on a yacht, the word station refers to the**

ISSA Hub

### Ship-ship Channels:

These channels are for **direct communication between vessels** and are commonly used for navigation, coordinating maneuvers, or situational awareness.

Examples include Channels 06, 08, 72, and 77.

China

This is only for testing. ABC school, is a sailing school that welcomes beginners for sailing.

**Course Name:** For Testing Only

**Certificate:** Dinghy Level 1

**Dates:** from 2025-06-19 to 2025-06-20

ISSA Dinghy Level 1 Course is an introductory program designed to teach the fundamentals of sailing small boats known as dinghies. These lightweight, single- or double-handed boats are ideal for learning due to their responsiveness and simplicity. The course typically includes both theoretical lessons and practical on-water sessions, providing a comprehensive foundation in basic sailing skills.

#### Check Instructor's Comment

Well done on completing your dinghy sailing course! You've shown great progress in both your practical skills and understanding of sailing theory. Your confidence on the water has grown, and you've demonstrated solid control and awareness of safety. Keep practicing what you've learned, and don't hesitate to join more advanced courses or local sailing clubs. Remember, the best way to improve is to sail often and in different conditions. We're proud of your efforts—see you on the water!
