Daunafill

COMFORT BEGINS IN SLEEP

The perfect blend of softness and support through down, feathers, and hollow polyester fibers – ideal for allergy sufferers. In pillows, this combination gently relieves cervical vertebrae and creates a comfortable microclimate through optimal air circulation. In duvets, the mix provides excellent thermal insulation, supported by the moisture-regulating properties of down and the loft of synthetic fibers. Easy to care for, shape-retaining, and exceptionally soft – for relaxed sleep in any position.

COLLECTION HIGHLIGHTS

The benefits of the collection

The filling makes the difference

Daunafill® combines the best of three worlds: fine down, supportive feathers, and modern polyester hollow fibers. This clever combination creates an especially pleasant lying experience – soft yet supportive. The down gives the filling its lightness and suppleness, while the feathers provide a stable foundation. The hollow fibers enhance volume, resilience, and ensure a balanced sleeping climate.

Gentle on the spine – soothing for neck & head

In our pillows, the Daunafill® filling provides a balanced combination of elasticity and support. It adapts individually without losing shape – offering noticeable relief for the neck muscles and stable head positioning. This allows the body to regenerate optimally.

Warmth that adapts to your sleep

In our duvets, Daunafill® unfolds its full potential: the fine air pockets of the down and fibers store warmth efficiently – without overheating. At the same time, the polyester hollow fibers ensure good air circulation, so you feel comfortable in any sleeping position.

Covers that complete the comfort

The Daunafill® experience is rounded off by high-quality cotton covers. They are breathable, moisture-regulating, and particularly easy to care for. This natural combination ensures a fresh, hygienic sleeping climate – night after night.

Duvet

The Daunafill® duvet provides lightweight warmth, excellent breathability, and lasting loft. Comfortable in weight, soft to the touch – for a balanced sleeping climate all year round.

Fine ticking Nm 100/100, 100% cotton – Color 01-white

Daunafill® blend: 50% polyester, 45% new white down, 5% new white feathers

Pillow

The Daunafill® Medium pillow offers the ideal balance of gentle softness and ergonomic support. With its supple filling, it ensures a balanced, comfortable sleeping experience.

Fine twill cover, 100% cotton – Color 01-white

Daunafill® blend: 50% polyester, 45% new white down, 5% new white feathers
