Opportunities

Clean Energy Jobs and Justice Fund | Financing Resources for Illinois Contractors

The Clean Energy Jobs and Justice Fund (CEJJF) is connecting Illinois contractors with financing solutions, including FairPath — offering access to a vetted lender network, lines of credit, and homeowner financing options, especially in underserved communities. CEJJF is also surveying contractors on financing gaps tied to federal tax credit changes to help shape future policy and tools.

NSF Seed Fund | SBIR/STTR Program Reopening for Submissions

The NSF Seed Fund, the federal SBIR/STTR program, is reopening for submissions next week. This national program provides non-dilutive funding

for companies developing high-impact, early-stage technology.

Phase I awards are typically around \$300,000 for R&D, with Phase II funding of \$1M or more to continue development toward market readiness. Illinois-based recipients may also be eligible for IL DCEO matching funds — up to \$75,000 for Phase I and \$250,000 for Phase II.

To get started, complete a [Project Pitch Assessment](#) and submit a [Project Pitch](#). Applicants are notified within one to two months whether they are invited to submit a full proposal.

Need help with your pitch? Reach out to [Jess Wain](#).

MEEA | Fundamentals of Energy Efficient Building Operations (FEEBO)

The Midwest Energy Efficiency Alliance (MEEA) offers FEEBO, an 18-hour course covering the principles of energy efficiency and preventative maintenance in commercial buildings. Topics include HVAC fundamentals, lighting, energy conservation, and indoor environmental quality — delivered over three full days or six half days.

The course is designed for those entering building operations, existing facilities personnel, and professionals whose work intersects with the built environment.

Interested? Reach out to [Arlinda Bajrami](#) for more information.

Energy Efficiency Revolving Loan Fund

The Energy Efficiency Revolving Loan Fund is designed to help developers, contractors, and building owners finance clean energy and energy efficiency projects across Illinois. This program provides short-term bridge loans to cover upfront project costs while awaiting incentives, rebates, or tax credits, helping

projects move forward without delays. Eligible upgrades may include solar, battery storage, geothermal systems, and energy efficiency improvements in commercial or multifamily buildings.

This program is a \$14 million revolving loan fund that will offer loans of up to \$1 million each for a short term (12-18 month) and, in some instances, more lengthy participation loans.

State Small Business Credit Initiative: Low-Interest Loans for Clean Energy Businesses

Illinois small businesses working in clean energy can access low-interest loans through the Illinois Climate Bank's SSBCI program. Loans range from \$25,000 to \$2 million at a flat rate of 1–2% annually, with terms up to 7 years. Eligible projects include solar, wind, EV charging, energy conservation, and more. Businesses must have fewer than 750 employees and operate in Illinois.

Policy

Illinois Worker Preference Requirement Now in Effect

If your project is funded by State of Illinois grants, a new compliance requirement is now active. Under the **Employment of Illinois Workers on Public Works Act** (30 ILCS 570), contractors on state-funded public works projects must use **at least 90% Illinois-based laborers** during periods of high unemployment.

This requirement was triggered because Illinois unemployment exceeded 5% for two consecutive months. It remains in effect until unemployment drops back below that threshold.

What this means for you: If your project involves construction or public works activity tied to state funding, review your contractor agreements to ensure compliance.

Need a waiver? Exceptions are available if Illinois workers are unavailable, unqualified for the specific work, or if compliance conflicts with federal law. Waiver requests must be submitted in writing with supporting documentation through your grant manager.

Clean and Reliable Grid Affordability Act: Now in Effect

The Clean and Reliable Grid Affordability (CRGA) Act took effect June 1, 2026. The law creates new opportunities for clean energy contractors and businesses, including:

- Expanded battery storage deployment
- New energy efficiency programs
- A Virtual Power Plant program
- Geothermal network pilot programs
- Stronger protections against solar fraud

Funding and program rollouts will occur gradually as regulatory approvals and program development timelines are met. For more information, refer to the factsheets developed by Elevate.
