

Business Certification Workshop

Innovation DuPage is exploring member interest in hosting a workshop series designed to help pursue and obtain diversity certifications that can open doors to new corporate, government, and supplier diversity contracting opportunities. The series would provide guidance on eligibility requirements, application processes, and ongoing support to successfully secure certification.

Which certification would be of most interest to you?

Women Business Enterprise (WBE) certification

Minority Business Enterprise (MBE) certification

Veteran Business Enterprise (VBE) certification

Persons with Disabilities Business Enterprise (PBE)
certification

Other

Your response will help us determine interest and plan future workshops.

Coming Up

**Illinois Green Alliance | Working Inside Imperfect Systems
| August 20, 5:30 to 7:30 PM**

Clean Energy Contractor Incubator Program member Chyanne Husar, Founder and CEO of HUSARCH, is joining a panel hosted by the Illinois Green Alliance! The discussion brings together practitioners from across sectors to explore how to move sustainability forward from inside fragmented markets, imperfect policies, and systems that were not designed with sustainability in mind. Taking place at the DIRT Showroom in Chicago.

CECI Workshop: Grant Preparation with Jess Wain

Grant Preparation with Jess Wain

Jess Wain

Wednesday, August 26th, 2026
In-Person: 10:30 AM – 12:00 PM

Jess Wain will be leading a grant preparation workshop that will follow this agenda:

- Grant prep essentials: materials, storytelling, financials, and impact of company changes
- Live Q&A: 30 minutes of member questions
- 1:1 guidance: personalized workshoping for member companies

535 Duane St. Glen Ellyn, IL 60137
Room 138 - ID Event Space

Open to all Innovation DuPage members, this workshop hosted by the CECI team gives you a structured path through grant preparation, from the fundamentals to your own materials. Jess Wain, Innovation DuPage's grant writer for ID members and co-founder of Hobbs & Wain Advancement Partners, will lead a 30-minute presentation on grant materials, storytelling, financial statements, and how partnership or company changes can affect your applications, followed by 30 minutes of Q&A and 30 minutes of one-on-one workshoping and in-person guidance tailored to your company.

National Energy Improvement Fund | Financing for Energy Efficiency & Renewable Projects

The National Energy Improvement Fund (NEIF) specializes in financing virtually any type of energy efficiency, renewable energy, and resilience projects for commercial, non-profit, and municipal properties.

NSF Seed Fund | SBIR/STTR Program Reopening for Submissions

The NSF Seed Fund, the federal SBIR/STTR program, is reopening for submissions next week. This national program provides non-dilutive funding for companies developing high-impact, early-stage technology.

Phase I awards are typically around \$300,000 for R&D, with Phase II funding of \$1M or more to continue development toward market readiness. Illinois-based recipients may also be eligible for IL DCEO matching funds — up to \$75,000 for Phase I and \$250,000 for Phase II.

To get started, complete a [Project Pitch Assessment](#) and submit a [Project Pitch](#). Applicants are notified within one to two months whether they are invited to submit a full proposal.

MEEA | Fundamentals of Energy Efficient Building Operations (FEEBO)

The Midwest Energy Efficiency Alliance (MEEA) offers FEEBO, an 18-hour course covering the principles of energy efficiency and preventative maintenance in commercial buildings. Topics include HVAC fundamentals, lighting, energy conservation, and indoor environmental quality — delivered over three full days or six half days.

The course is designed for those entering building operations, existing facilities personnel, and professionals whose work intersects with the built environment.

Interested? Reach out to the [CEI Team](#) for more information.

Energy Efficiency Revolving Loan Fund

The Energy Efficiency Revolving Loan Fund is designed to help developers, contractors, and building owners finance clean energy and energy efficiency projects across Illinois. This program provides short-term bridge loans to cover upfront project costs while awaiting incentives, rebates, or tax credits, helping projects move forward without delays. Eligible upgrades may include solar, battery storage, geothermal systems, and energy efficiency improvements in commercial or multifamily buildings.

This program is a \$14 million revolving loan fund that will offer loans of up to \$1 million each for a short term (12-18 month) and, in some instances, more lengthy participation loans.

State Small Business Credit Initiative: Low-Interest Loans for Clean Energy Businesses

Illinois small businesses working in clean energy can access low-interest loans through the Illinois Climate Bank's SSBCI program. Loans range from \$25,000 to \$2 million at a flat rate of 1–2% annually, with terms up to 7 years. Eligible projects include solar, wind, EV charging, energy conservation, and more. Businesses must have fewer than 750 employees and operate in Illinois.

Policy

Illinois Worker Preference Requirement Now in Effect

If your project is funded by State of Illinois grants, a new compliance requirement is now active. Under the **Employment of Illinois Workers on Public Works Act** (30 ILCS 570), contractors on state-funded public works projects must use **at least 90% Illinois-based laborers** during periods of high unemployment.

This requirement was triggered because Illinois unemployment exceeded 5% for two consecutive months. It remains in effect until unemployment drops back below that threshold.

What this means for you: If your project involves construction or public works activity tied to state funding, review your contractor agreements to ensure compliance.

Need a waiver? Exceptions are available if Illinois workers are unavailable, unqualified for the specific work, or if compliance conflicts with federal law. Waiver requests must be submitted in writing with supporting documentation through your grant manager.

Clean and Reliable Grid Affordability Act Now in Effect

The Clean and Reliable Grid Affordability (CRGA) Act took effect June 1, 2026. The law creates new opportunities for clean energy contractors and businesses, including:

- Expanded battery storage deployment

- New energy efficiency programs
- A Virtual Power Plant program
- Geothermal network pilot programs
- Stronger protections against solar fraud

Funding and program rollouts will occur gradually as regulatory approvals and program development timelines are met. For more information, refer to the factsheets developed by Elevate.
