Leviahub and Pionira cooperate for e-CMR

Jan 23, 2026 at 10:39 AM

Europe Forwarding & Logistics

Leviahub has formed a strategic partnership with Pionira to advance the implementation of the electronic consignment note (e-CMR) in Europe. According to Leviahub, the collaboration aims to strengthen interoperability, regulatory compliance, and the digitization of transport documents.

The partnership between Leviahub and Pionira is intended to promote the adoption of digital solutions at the European level. These solutions are designed to meet the regulatory and operational requirements of the sector, according to the companies. Through their collaboration, the two companies aim to optimize existing digital processes. This could not only enhance efficiency in the transport sector but also help ensure compliance with applicable regulations.
