

TECH4 REGEN

by EPFL Innovation Park

**Partner with Switzerland's leading forum
connecting industry, startups and research
to accelerate circular industrial innovation**

3rd edition, November 26, 2026, EPFL

Circular Industry Forum

WHY PARTNER?

- **Gain early access to breakthrough technologies** and high-potential startups emerging from Switzerland's innovation ecosystem
- **Position your company at the center of the conversations** and cross-sector collaborations shaping circular, resilient and competitive industries.
- **Build strategic partnerships** with startups, researchers, industrial companies and investors actively developing next-generation industrial solutions
- **Shape the dialogue around industrial resilience** and the deployment of sustainable technologies at scale
- **Demonstrate your commitment to innovation** by supporting a program focused on execution, industrialization and commercialization of solutions delivering measurable environmental and business impact
