SKINCARE

MOISTURE LAYER SUNSCREEN

PROTECT

NOURISH YOUR SKIN ALL DAY WHILE
PROTECTING IT FROM THE SUN.

KEY INGREDIENTS:

Glucosylrutin

Powerful antioxidant with high biocompatibility for advanced protection.

8-Layer Hyaluronic Acid

Composed of hyaluronic acids of varying molecular weights for hydration at every skin layer.

Lusiant Mela XD (Patent No. 10-176-4806)

Patented Lycopodium Clavatum Extract and Equisetum Arvense Extract to brighten skin and enhance elasticity.

Glyceryl Glucoside

Balanced hydration and environmental defense.

KEY BENEFITS / CLAIMS:

- Powerful UV Protection (Broad Spectrum SPF50+) This daily moisturizing, lightweight sunscreen boasts an SPF of 50+ for fun in the sun without the stress of skin damage.

Not Your Average Sunscreen

- Proprietary complexes and hydrating ingredients like our 8-Layer Hyaluronic Acid helps skin feel moisturized AND improves elasticity, so you can protect your skin and treat it, all in one product.

Gentle Formula

- HRIPT TEST completion affirms that this UV Protection formula is suitable for everyday wear. Epicuticular testing confirms no risk for eye irritation.

Smooth, Replenishing Texture

- Goes on smooth with a subtle glow; doesn't whiten the skin and won't cause caking when makeup is applied.

Quantity: 50 mL / 1.69 fl. oz.

HOW TO USE:

Use daily as the last step in your morning skincare ritual, at least 15 minutes prior to sun exposure.

1. Apply evenly on the face, neck, and other body parts in need of UV protection.
2. During prolonged sun exposure, apply every two hours. Can be worn alone or under makeup as a primer.

Pro tip: combine with **Sheer Glow BB** for a protected, moisturized, and light coverage look.
