# General

## An elegant workshop space for event & conference

Create a special and elegant space at your event with this Kiosk. With generous dimensions and oval design, it brings design and functionality at the same time.

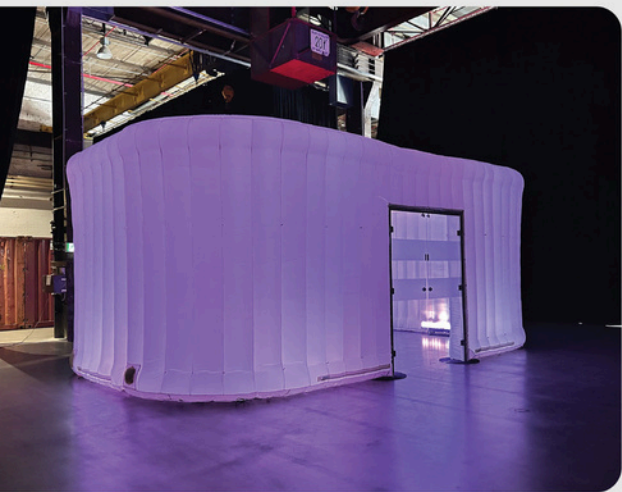

The Kiosk has an entrance on the long side that can be optionally closed with a double glass door, further enhancing privacy inside.

The rounded shapes along with the high walls make the Kiosk provide surprisingly good acoustics.

# Truss systems

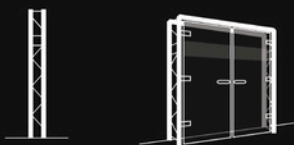

## with optional glass doors

This structure is fitted with truss systems in the entrance(s), which are integrated into the structure. As a result, the trusses are not visible, but they ensure stability and a safe environment.

Optionally, this structure can be equipped with glass doors. These doors provide improved privacy and soundproofing, and give the structure an elegant entrance.

Height	3.2 m
Surface Indoor	26 m <sup>2</sup>
Persons (seated)	30 - 34
Number of entrances	1
Size entrance(s)	240 cm x 180 cm

# Product Enhancement

## Acoustics and quiet airflow

This Kiosk is optimized for acoustic properties, making them ideal for workshops and presentations or acoustic partitions, for example. In addition, this structure is equipped with an isolated blower system that is not audible.

## Sustainability and circularity

With QuickSpace products, you don't create waste at your event. Our products are cleaned in an environmentally friendly way after use, making them new-worthy at every event. At the end of life, our products are processed into other products such as storage bags, contributing to a circular economy.

## Branding

On request, this structure can be branded with your own branding, for example by theme colors, projection of logos or texts, or by means of TV screens or banners.

## Led lighting

This structure can be illuminated in any color using LED modules, creating a unique ambiance. This can be set both statically and dynamically.

Kiosk

## Quick installation and dismantling

One of the benefits of QuickSpace products is the quick installation and dismantling. Hence, it is possible to install the structures at your convenient times, saving you costs and time. Our experienced teams will take care of the installation, disassembly and, if necessary, design of your event.

# Safety

## Fire safety certificates

All our structures have the most important fire safety certificates such as German B1, France M1 and American NFPA 701

## Construction safety

QuickSpace structures guarantee safe and stable spaces. Depending on the type of structure, there are integrated truss systems that give the structure stability. Structures with (partially) closed roofs are fitted with integrated truss systems in the doorways, so that the exits always remain open in case of emergencies. Safe, quick and easy setup and dismantling processes minimise accident risks, ensuring structures are correctly installed.
