

Building Inspection Process

Step 1

- Permit Issued.

Step 2

- Job site construction begins.

Step 3

- Inspection Request:
 - One day advanced notice.
 - Scheduled online, email, fax, in person at the public counter, or phone.
 - Common types of inspections: Underground utilities, foundation, framing, rough plumbing, mechanical, & electrical, final inspection, etc.

Step 4

- Inspection:
 - Inspector approves the work or issues a correction notice.
 - Projects that require multiple inspections throughout the process or have corrections, repeat Step 3.

Step 5

- Inspections completed, project done and approved by inspector.
 - Permit finalized.
