CMC Chapter 17.92 Conditional Use Permit

17.92.110 Granting – Criteria.

(A) Neither the Commission nor the Council, upon appeal or Council initiated review, may grant a conditional use permit for any use, for which a conditional use permit may be granted under any provision of this title, unless it has first found from the evidence admitted during the hearing before the Commission or Council that the proposed use at the proposed location will not be detrimental to the public health, safety, convenience and general welfare and will be in harmony with the various elements and objectives in the city's General Plan.

(B) Prior to making such findings, the Commission and/or Council should in its deliberation consider whether the proposed use at the proposed location is detrimental to other existing and permitted uses in the general area thereof and relates properly to existing and proposed streets and highways.

(C) In granting a conditional use permit, the Planning Commission and City Council may impose such reasonable conditions as are deemed necessary and desirable to protect the public health, safety, convenience and general welfare of the city, in accordance with the intent and purpose of the city's zoning regulations. The conditions are incorporated into this code by reference.

(D) If a conditional use permit is granted by the City Council or Planning Commission for a proposed use, the exercise of the use shall be subject to all the property development standards of the zone in which said use is permitted by a conditional use permit, which standards may be made more restrictive by any condition imposed on the grant of said permit.

17.92.150 Revisions to site plan.

(A) Minor revisions to a site plan approved as part of a conditional use permit may be made after review and approval by the Planning Director pursuant to the site plan review procedure, [Chapter 17.102](#). Minor revisions are defined as revisions which in no way violate the intent or any of the standards or conditions of the permit or of the zone.

(B) Revisions other than minor revisions, as defined in division (A) of this section, made pursuant to the regular conditional use permit procedure set forth in the chapter.

(C) All copies of the approved revised site plan shall be dated and signed by the Planning Director and made a part of the record of the subject conditional use permit. One copy of the approved revised site plan shall be mailed to the applicant.
