

Aurum Impact

A brief introduction

We are impact investors empowering systemic change.

Our vision: Our vision is to live in a world with healthy and stable natural ecosystems, where everyone has an equitable chance to unlock their full potential.

Our mission: We empower founders to drive systemic change and engage across the ecosystem to mobilize more capital.

Our approach: Grounded in strong environmental and social conviction, we deploy flexible capital with a long-term view.

Backed by: The Goldbeck Family, a German entrepreneurial family, owning GOLDBECK, a leading player in the European construction industry and GOLDBECK Solar, specialized in solar installations

We invest in founders committed to tackling the most pressing challenges of our time.

Circularity & Materials

Climate & Energy

Natural Ecosystems

Stable & Equitable Societies

Our portfolio (selection)

Energy storage systems from second-life batteries

Platform to measure, register, and exchange nature equity

Carbon removal through enhanced rock weathering

Decentralized energy infrastructure for industry

Waste management technology to keep plastic out of oceans

Producing syngas from hard-to-recycle plastic waste

Storing CO2 in supplementary cementitious materials

Platform to simplify and grow philanthropic giving

Thermal energy storage to decarbonize industrial heat

Geographies: DACH and Europe; USA opportunistically

Stages: Pre-Seed, Seed and Series A; flexible to follow-on

Ticket size: About €500k to €2m for an initial investment

We back funds that lead with impact and prioritize ESG and diversity along the way.

Explicit impact mission	Impact & ESG in investment process	Impact & ESG in portfolio management
Diversity & inclusion	SFDR	Additionality / USP
Team	Track record	Portfolio fit

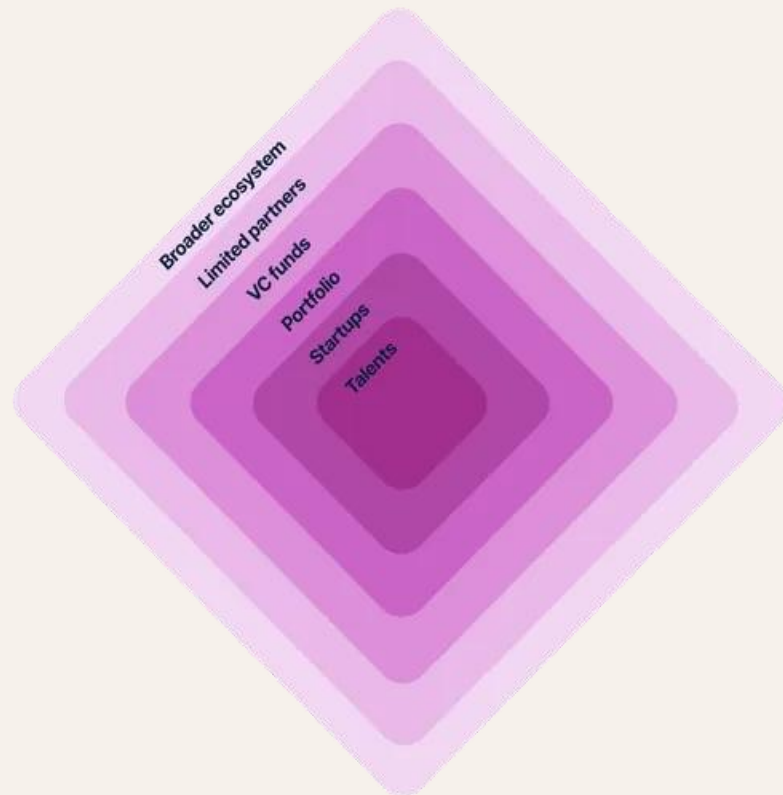

Our portfolio (selection)

Geographies: Europe and the US; other regions opportunistically

Focus areas: Agnostic, as long as they are major impact challenges

Ticket size: About €1m to €10m

Capital is not enough – we aim to shape and drive progress across the entire innovation ecosystem.

Build alliances with the most relevant players in the social and environmental change ecosystem and publish actionable insights on key change levers.

Invest in top impact VC funds, build alliances with impact LP communities, and publish actionable insights for LPs.

Invest in top impact startups, build alliances with impact VC communities, and publish actionable insights for VCs.

Build a diverse team, implement highest impact & ESG standards for ourselves, and give back to the community.

Support our portfolio to set, track, and meet ambitious impact and ESG targets.

Build alliances with impact incubators and accelerators and support startups throughout the impact ecosystem with knowledge and tools.

Build alliances with talent programs and universities and support (diverse) talents via mentorship and knowledge sharing.
