

Māori national overview

This Māori national overview presents data related to the Māori workforce who work in infant, child, and adolescent mental health and alcohol and other drug (ICAMH/AOD) services, funded by Health NZ. It also includes population and service access data for Māori pēpi, tamariki, and rangatahi aged 0–24. For 0–19 data, data definitions and data references, please see main report.

WORKFORCE DATA

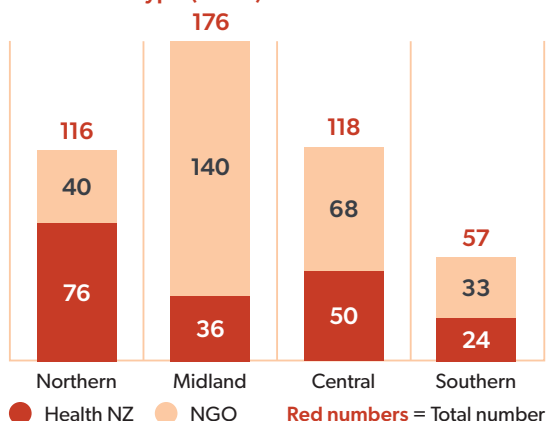

Māori workforce data by headcount (2022 - 2024)

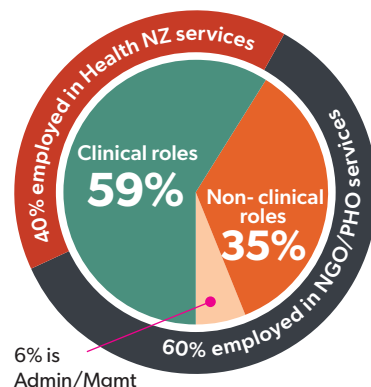

Regional share of Māori workforce in 2024 and change since 2022

Māori workforce headcount by region and service type (2024)

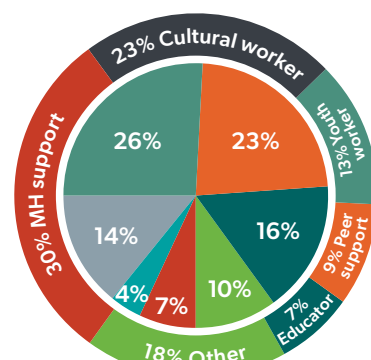

Māori workforce by service and role type (2024)
