Intuit

Senior Product Designer

Design Systems

July 2023 – Present

Redesigning components, tokens, and foundations to deliver a refreshed design system and visual language across our core, enterprise, and accountant products. Partnering with eng on an experimental build to test and iterate.

Product Designer

Visual Language

Aug 2021 – July 2023

Delivered redesigned table patterns and data visualization frameworks that improved scalability and cohesion across shared experiences. Unified visual and interaction standards for cross-team adoption.

Product Design Intern

Money

June 2020 – Sept 2020

Refined visual designs for Bill Pay screens across web and mobile. Produced presentation materials for cross-functional alignment and leadership review.

Studio Tilt

Design Researcher

School of Art + Art History + Design

Sept 2019 – June 2021

Applied speculative and human-centered design methods to explore future-oriented interactions with home data and IoT. Designed and developed three artifacts to reveal new data encounters and entanglements.

BDes

Visual Communication Design

University of Washington

June 2021

Awards

Honorable Mention, CHI 2023

On the Making of Alternative Data Encounters: The Odd Interpreters

Certificate of Typographic Excellence, TDC67
