# The issue with static posters...

- Stuck with a single message for a month(s)

- Ordering, printing, shipping, and hanging takes a lot of time and money

- Wasteful - you throw the old ones out each month

- Paper posters have become background noise

- They are difficult to see notice from a distance

- You can't A/B test content

Benefits of a digital window poster...

- Hit a customer with multiple different messages as they walk to your door or drive by

- Create, manage and schedule content from anywhere on the planet

- Use animation to attract more attention

- Can be seen from greater distances

- No printing, no waste, no time to take up and down

- Can be seen in direct sunlight, unlike a TV

- A/B test content, react faster to current events or promote community messaging

The Cirrus Digital Window Poster

Included with your Digital Window Poster:

- One 2' x 3' 4mm LED Digital Poster

- Mounting equipment

- 120V power cord
