

INSTRUCTIONS TO APPLY

1. CHECK PROJECT AND EQUIPMENT ELIGIBILITY

- Read all Terms and Conditions carefully to confirm your eligibility to participate in the Non-Residential Prescriptive Enhanced Program Bundle. Visit DomSavings.com to view the full list of qualifying measures and to select a participating contractor.

2. SUBMIT AN INITIAL ASSESSMENT TO RESERVE FUNDING

- An initial assessment is required for all projects. Contact us at Prescriptive@Honeywell.com to request an initial assessment.
- Wait until you receive notice that the initial assessment has been reviewed before starting your project with the participating contractor. You will receive a confirmation stating your project has been reviewed and the amount of rebate incentive reserved.
- All projects involving Evaporator Fans (Measure 1 in the Rebate Chart) or HVAC System Tune-Up (Measure 6) will be contacted for an on-site visit.

3. INSTALL EQUIPMENT OR PERFORM PROJECT WORK

- The incentive reservation allows 120 days to complete your project. You can only submit a rebate application when the project is complete. Contact us if you think your project will require more than 120 days.

4. SUBMIT A REBATE APPLICATION

- Submit a rebate application with a copy of the dated contractor invoice within 45 days of the service date and product invoice(s). Product specification sheets must also be submitted for the following measures:
 - Evaporator Fans (All listed in Measure 1)
 - ENERGY STAR® Certified Appliances (All listed in Measure 2)
 - Commercial Freezer and Refrigerator Doors (Measure 3, Items R1 to R16)
 - Low/No Anti-Sweat Door Films (Measure 3, Items R25 and R26)
 - Ice Makers (All listed in Measure 4)
 - Enhanced Measures (All listed in Measure 10)
- Submit the rebate application in one of three ways below:
 - Email: Prescriptive@honeywell.com
 - eFax: 804-621-2241
 - Mail: Honeywell Smart Energy
3951 Westerre Parkway, Suite 350 • Richmond, VA 23233
- You may be contacted for a post-installation quality assurance inspection to verify that your application meets program guidelines.

5. RECEIVE INCENTIVE PAYMENT

- When your rebate application is approved, a rebate check will be mailed to you or the participating contractor.

TERMS AND CONDITIONS FOR DOMINION ENERGY VIRGINIA

These terms and conditions apply to the Non-Residential **Enhanced Prescriptive Bundle** ("Program"). The Program has been approved by the Virginia State Corporation Commission.

Any reference in these documents to "Dominion Energy" or "Dominion Energy Virginia" should be read as a reference to Virginia Electric and Power Company d/b/a Dominion Energy Virginia, as well as its authorized agents and contractors.

ENROLLMENT QUALIFICATIONS AND REQUIREMENTS FOR PARTICIPATION

- Service must be performed **on or after January 1, 2026**.
- Program participant must be a Dominion Energy Virginia non-residential customer ("Customer") who is not exempt by statute, not under special contract, is responsible for the electric bill, and has not elected to opt-out of paying the DSM rider.
- Program participant must be a Dominion Energy Virginia non-residential customer who is the owner of the facility or reasonably able to secure permission to complete measures.
- Customer is eligible for more than one rebate per location during the Program time period, except as stated below.
- Customer who has previously received a rebate for any of the measures in the Program is not eligible to receive another rebate for installing the same measure on the same equipment/system that previously received an incentive.
- Work may be completed either by a registered contractor participating in Dominion Energy's network for this program, or by the individual Customer via self-install.
- Customers who choose to self-install the measures must submit an initial assessment form prior to purchasing equipment or initiating work. Self-install measures are subject to both a pre-approval inspection and a post-installation inspection for Quality Assurance (QA) purposes.
- Dominion Energy Virginia and/or its designees including Program administrators and evaluation contractors reserve the right to review installations to verify completion and measure energy savings to ensure compliance with all Program requirements. Such reviews will be made at a time convenient to the applicant. Denial of such verification or misrepresentation of installation location or measure eligibility may result in forfeiture of the rebate.
- Service must be completed in accordance with all laws, codes and other requirements applicable under federal, state and local authority.
- The Customer understands that they may be contacted by Dominion Energy via survey or questionnaire to provide feedback regarding Customer satisfaction with the Program.
- The Customer understands that through participation in this energy conservation program and receiving a rebate, they are ineligible to opt out of energy efficiency programs for a period of three years following their year of participation. Year of participation is specifically based on the date of incentive approval by Dominion Energy.

PROCESS AND PAYMENT

- An approved initial assessment reserves incentive funding and allows 12 months to complete the project. Customer can only submit a rebate application when the project is complete.
- Rebate application must be submitted within 45 days of the service date.** It is the Customer's responsibility to ensure that all requirements of the rebate are met. Failure to provide any of the required information will delay application processing and could result in non-payment.
- Rebate payments will be capped at a maximum limit of 75% of Customer's total invoice amount based on the eligible incentives on Customer's rebate application.

- When the application is approved, a rebate check will be issued to the account holder and mailing address on record with Dominion Energy Virginia unless the Customer has authorized in writing that payment be made to the contractor specified in the application.
- Rebate payments are based on the date of service. Customers must abide by the rules and rebate levels in effect on the date of service.
- Please allow up to 90 days from the date all required information is received to process your rebate.**
- Customer should seek appropriate consultation concerning any tax liabilities that could be associated with the receipt of the rebate.

OTHER REQUIREMENTS

- Program procedures, requirements and rebate levels are subject to change or cancellation without notice and are subject to Program funds being available and regulatory approval.
- Dominion Energy Virginia, its parents, subsidiaries, employees, affiliates and agents assume no responsibility for, and make no representations (express or implied) about, the performance of the equipment or equipment warranty, the quality of the work, labor and/or materials supplied, and/or the acts or omissions of the participating contractor.
- By participating in this Program, the Customer hereby agrees to indemnify, defend and hold harmless Dominion Energy Virginia, its parents, subsidiaries, employees, affiliates and agents from any and all liability associated with the Program. Dominion Energy Virginia shall not be liable for loss or damage to any person or property whatsoever, resulting directly or indirectly from participation in this Program.
- Dominion Energy Virginia retains all rights to energy and demand savings resulting from measures installed under this Program. Dominion Energy has the exclusive right to enroll, nominate, or offer a bid for energy or demand reductions resulting from measures installed under this Program into load management programs, demand response programs, or auctions operated by PJM Interconnection, L.L.C. ("PJM"), the regional electric transmission entity of which Dominion Energy Virginia is a member. Customer's participation in the program means that the Customer is consenting to Dominion Energy Virginia sharing the Customer's pertinent information with PJM, Dominion Energy Virginia's agents and contractors, including, but not limited to, its implementing contractors and its measurement and verification vendor. Pertinent Customer information includes account holder name, account number, energy usage and billing information, address, other contact information, measures installed, period of installation, demand/energy reductions resulting from measures installed under this Program and the technical basis for such reductions, loss factors, coincidence factors, interactive factors, building type and other information necessary to implement and monitor the Program including other information as required by PJM or any other regulatory authority.
- Customer understands and affirms that the installed measures associated with this rebate application have not been, and will not be, incentivized or otherwise financially supported by any other Dominion Energy Virginia-sponsored energy efficiency program. Under no circumstances may a program measure be incentivized twice except as otherwise noted in the Program Terms and Conditions regarding allowances for multiple rebate applications (when applicable).
- The Customer agrees, as a condition of participation in the program, to remove and dispose of the equipment being replaced by the Program EEMs in accordance with all laws, codes, and regulations. The Customer agrees not to reinstall any of this equipment anywhere in Virginia or transfer it to any other party for installation in Virginia.
- These Program specific terms and conditions are in addition to the terms and conditions of service currently on file with the Virginia State Corporation Commission and contained in any agreement between the Customer and a Program vendor.

Virginia Non-Residential Prescriptive Enhanced Program Bundle

Rebate Application for All Measures

APPLICATION CHECKLIST

Complete the checklist below and submit all required documents. Rebate cannot be processed with any missing information or blank fields.

Who is submitting this rebate application? ☐ Customer ☐ Contractor

☐ I _____ (YOUR INITIALS) HAVE READ THE INSTRUCTIONS AND TERMS AND CONDITIONS ON PAGE 1.

☐ Completed entire rebate application.

☐ Attached a copy of the dated invoice from the contractor who performed the work.

☐ Attached a copy of the invoice for any product purchased (If applicable).

✓ **Submit in one of three ways:**

1. Email: Prescriptive@honeywell.com

2. eFax: 804-621-2241

3. Mail: Honeywell Smart Energy • 3951 Westerre Parkway, Suite 350 • Richmond, VA 23233

CUSTOMER DETAILS

Rebate Incentive Agreement • Compressed Air Systems

Date: _____

Customer Contact Name: _____

Customer Company Name: _____

Customer Street Address: _____

City: _____ State: _____ Zip Code: _____

Thank you for your interest in participating in Dominion Energy Virginia's Non-Residential Compressed Air Systems Program, implemented by Honeywell Smart Energy. We are pleased to inform you that the project listed below has been approved based on the planned installation of measures you have supplied. The estimated rebate incentive below is valid until 12 months from date listed above, with the possibility of an extension if you have made substantial efforts toward completion of the project. Work must be completed, and Rebate Application Packet received with supporting documentation within 45 days of your project's completion date or the Program commitment to you will expire.

Project Location: _____

Estimated Measure Installation Incentive: \$ _____

Estimated Audit Cost Reimbursement: \$ _____

Total Estimated Rebate Incentive: \$ _____

Below is a list of approved measures:

- ☐ Efficient Compressed Air Nozzles
- ☐ Compressed Air Leak Repair
- ☐ No-loss Condensate Drains
- ☐ Additional Compressed Air Storage
- ☐ Compressor Pressure Setpoint Reduction
- ☐ Low Pressure Drop Filter
- ☐ Heat of Compression Dryer
- ☐ Cycling Refrigerated Dryer
- ☐ Desiccant Dryer Dewpoint Controls
- ☐ Efficient Air Compressor
- ☐ Custom Measure

The estimated rebate incentive represents the maximum incentive for the proposed project based on the approved value of each proposed measure at the time of this reservation of funds, and these measure values are subject to change. The actual incentive paid is contingent on the approved value of each installed measure at the time of project completion, which may be verified by a site inspection. You as the customer are responsible for the contractor's work and costs not covered by the incentive. See the Rebate Application for program Terms and Conditions and please note that all program procedures, requirements and rebate levels are subject to change or cancellation without notice and are subject to program funds being available and regulatory approval.

When the project is complete, you must ensure that all documents provided in the Rebate Application Checklist are submitted. If the final project is different than what was originally submitted, please provide a new data submittal sheet. The invoice should include a description of the equipment installed, quantity, and unit price (e.g. material price per fixture, motor, etc.). Material and labor should be indicated separately. If you are requesting an audit cost reimbursement, the audit cost should be indicated separately on the invoice or may be submitted as a separate invoice.

Additionally, please be aware that you may receive a survey regarding your satisfaction with the Program, and you may be asked to have your equipment verified by a Dominion Energy contractor at a time that is convenient for you. These are great opportunities for you to communicate the value of Dominion Energy's rebate offerings in your decision to have this energy-saving work performed. Your positive feedback will help ensure energy efficiency rebates are available to customers in the future. If you have any questions, please call **888-366-8280**.

Sincerely,

Deanna Sadler

Measure Installation • Compressed Air Systems

Is the final project different than what was originally submitted in the Initial Assessment?

☐ No, the project scope remains the same.

☐ Yes, there was a change in project scope.

If yes, please provide a new data submittal sheet. You will need to submit a copy of the invoice and product specification sheet for any new product purchased.

Building Data

Building Age	Total Sq Ft of Area	Cooling System Type	Cooling System Capacity Per Unit (Tons)	Heating System Type	Heating System Capacity Per Unit (Btu/hr)	Primary Heating Fuel
		☐ Air-Cooled Chiller ☐ Water-Cooled Chiller ☐ Rooftop DX ☐ PTAC ☐ PTHP ☐ Hydronic Heat Pump		☐ Boiler ☐ Furnace ☐ PTAC ☐ Heat Pump Packaged ☐ PTHP ☐ Heat Pump Split		☐ Electric ☐ Non-Electric ☐ None

Reason: ☐ Retrofit ☐ New Construction ☐ Replace Deteriorated

Rebate Data

Final SHGC level after film installation must be ≤ 0.5 in order to be eligible for rebate.

SHGC Improvement	Rebate Incentive
≤ 0.5	\$1.00 per sq ft x _____ sq ft = \$ _____

Total Estimated Rebate: \$ _____
