

Press Release

ndpx Achieves ISO/IEC 27001 Certification

Bandar Seri Begawan, 8 January 2026 – National Digital Payments Network Sdn Bhd (ndpx), the operator of tarus, the national instant payment system, has been awarded the ISO/IEC 27001 certification by the British Standards Institution (BSI). This achievement confirms that ndpx's Information Security Management System (ISMS) meets the international standard for data security and operational integrity.

As an approved payment system operator, ndpx plays a central role in advancing the country's digital payments ecosystem. This certification, officially granted on 8 December 2025, underscores the organisation's commitment to protecting data that flows through its systems.

The certification covers the management and operations of the Instant Payment System (IPS), including supporting IT infrastructure and related supporting functions within ndpx. By meeting the requirements of ISO/IEC 27001, ndpx has demonstrated that it has established a comprehensive framework of risk-based controls to manage and secure sensitive information.

ndpx will continue to review and enhance its security measures, ensuring that the protection of information remains a fundamental element of the organisation's long-term operational strategy.

About ndpx

National Digital Payments Network Sdn Bhd (ndpx) is an Approved Payment System Operator licensed by the Brunei Darussalam Central Bank (BDCB). ndpx owns and operates tarus, the national instant payment system that enables individuals, businesses, and financial institutions to transact safely and efficiently as part of Brunei's digital economy.

ndpx Meraih Pensijilan ISO/IEC 27001

Bandar Seri Begawan, 8 Januari 2026 – National Digital Payments Network Sdn Bhd (ndpx), pengendali tarus, iaitu sistem pembayaran segera kebangsaan, telah dianugerahkan pensijilan ISO/IEC 27001 oleh British Standards Institution (BSI). Pencapaian ini mengesahkan bahawa Sistem Pengurusan Keselamatan Maklumat (Information Security Management System, ISMS) ndpx memenuhi piawaian antarabangsa bagi keselamatan data dan integriti operasi.

Sebagai pengendali sistem pembayaran yang diluluskan, ndpx memainkan peranan penting dalam memajukan ekosistem pembayaran digital negara. Pensijilan ini diberikan secara rasmi pada 8 Disember 2025, menegaskan komitmen organisasi dalam melindungi data yang diproses melalui sistem tarus.

Pensijilan ini merangkumi pengurusan dan operasi sistem pembayaran segera (Instant Payment System, IPS), termasuk sokongan teknologi maklumat serta fungsi berkaitan dengan ndpx. Dengan memenuhi piawaian ISO/IEC 27001, ndpx telah membuktikan bahawa ianya mempunyai sistem kawalan berasaskan risiko yang menyeluruh bagi mengurus dan melindungi maklumat sensitif.

ndpx akan terus menilai dan mempertingkatkan lagi langkah-langkah keselamatan bagi memastikan perlindungan maklumat sensitif sebagai sebahagian penting dalam strategi operasi organisasi di jangka yang panjang.
