2026 SUMMIT THEMES

Entering the Age of Physical AI

1. The CleanAI Stack

The energy and critical minerals needed to power sustainable data centres and a resilient, clean economy

2. CleanAI in Action

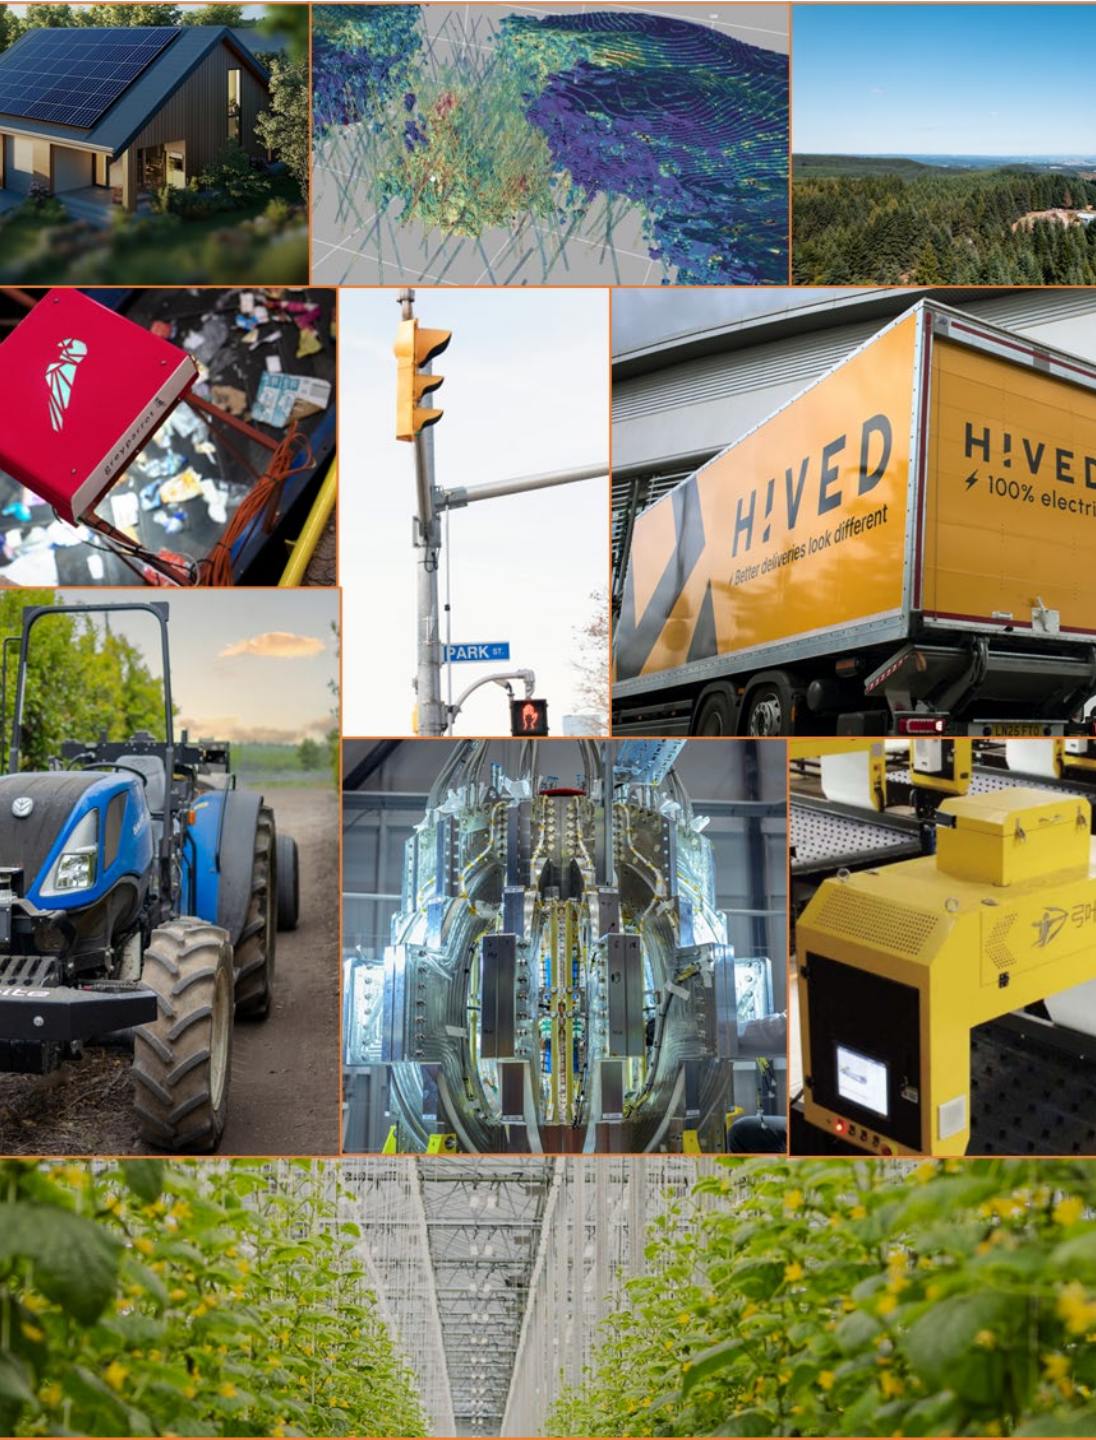

How AI is transforming energy, food, water, cities, and infrastructure and why these are the defining markets of the next decade

3. The Future of CleanAI

How advances in AI, from agentic and physical AI to world models, will accelerate the transition to a sustainable and prosperous world

4. Scaling CleanAI for Global Impact

What it takes to move from proof-of-concept to deployment across borders, industries, and asset classes

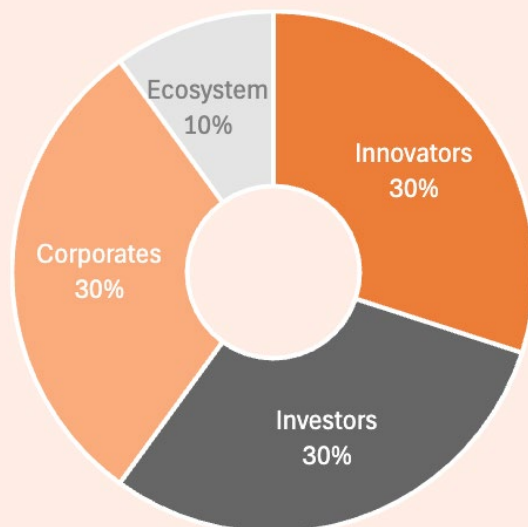

Our Track Record

The Global CleanAI Summit is the world's only conference dedicated to cleanAI.

We're building on two successful sold out summits that galvanized a curated international community of innovators, investors and major organizations committed to advancing the commercialization and scaling of cleanAI solutions.

Feedback from Past Participants

The first two sold-out summits had an overall participant rating of 4.8 Stars

This year's Summit will be even bigger and bolder.

“The **speakers were incredible**, and the **networking was phenomenal**. The amount of talent, knowledge, and expertise packed into one room was truly impressive.”

“The curation of speakers and and topics was great. Everyone was knowledgeable and friendly. It was **a really great change from most AI things out there right now...**”

“**Quality of presenters and audience, exceptional.** Thanks for your leadership...”

“Content and speakers were very relevant and provide **insight context**. Successfully attracted the right stakeholders.”

Why Sponsor the Global CleanAI Summit?

Sponsorship of the Global CleanAI Summit highlights your organization at the world's only summit dedicated entirely to the convergence of the multi-decade megatrends of the clean economy transition with the transformative rise of artificial intelligence.

Sponsorship puts **your brand in front of 200+ top global cleanAI leaders and decision makers convening in person**. This global event is a unique opportunity to demonstrate your organization's leadership at the forefront of the nascent cleanAI industry.

CleanAI Initiative

CleanAI Initiative

The CleanAI Initiative is at the forefront of exploring how artificial intelligence can accelerate the transition to a clean economy. We are a fast-growing platform with a mission to provide cutting-edge insights and intelligence and create a global action-driven ecosystem at the intersection of AI and sustainability solutions. The CleanAI Initiative is based in Toronto, the birthplace of modern AI, and is the first global hub dedicated to this space.
