OUR PROMISE

At Performatec, we're about helping our customers get production out the door every day. Working with our customers to acquire technology from the world's best machine manufacturers and forging lasting partnerships is what we live and breathe.

As your trusted manufacturing production partner, we'll be here to navigate you through every decision and challenge, crafting solutions uniquely tailored to the needs of your operation.

Our commitment to your success is unwavering. With dedicated, unparalleled customer support, we'll ensure rapid resolutions that keep your production moving smoothly, maximising uptime and efficiency.

By leveraging more than two decades of expertise and industry connections, we'll provide you with a comprehensive portfolio of high-quality machines, parts and consumables - all designed to meet the depth and breadth of your manufacturing requirements.

Yet, for us it's more than just meeting today's needs. We're focused on fostering your growth and success over the long haul. Our pledge to you encompasses comprehensive support, bespoke solutions, and an unyielding commitment to your growth journey - every step of the way.

Side By Side Comparison

NOTE: The prices listed are indicative and do not include GST. They are subject to change based on the fluctuation of foreign exchange rates. The indicative prices are calculated using an exchange rate of 0.65 AUD to 1 USD. Changes in the exchange rate will impact the final cost.

The definitive price will be provided in a proposal after a waterjet technician has assessed your specific needs. The indicative price covers the waterjet table, software, controller, high-pressure pump, and bulk abrasive feeder, with installation and commissioning in Australian metropolitan areas.

Series	HGL	MGH	HNC
More Details	Page 6	Page 7	Page 8
Price Indication	\$70k to \$130k	\$100k to \$185k	\$110k to \$415k
Cutting Length	2060mm to 4060mm	3060mm to 4060mm	3070mm to 6070mm
Cutting Capacity (45kg/mm ²)	6mm to 20mm	6mm to 20mm	6mm to 25mm
Cutting Capacity (70kg/mm ²)	4mm to 5mm	4mm to 13mm	4mm to 16mm
Rake Angle	1.6° to 1.8°	1.5° to 3°	0.5° to 3.5°
Motor Power	11kW to 15kW	11kW to 37kW	11kW to 45kW
Stroke Speed	12 to 26 cut/min	7 to 12 cut/min	4 to 32 cut/min

Why Performatec?

Downtime is the adversary of progress. Every moment your machines stand still, you're not just losing time; you're losing opportunities and profit. The ripple effect can be catastrophic. It can lead to missed deadlines, strained customer relationships, and a tarnished reputation.

Performatec stands as your champion against these challenges. With world-class machinery, premium spare parts and exceptional after sales support, we equip your business with the tools it needs to thrive. We don't just supply equipment; we deliver customised solutions.

"[Performatec] are an absolute pleasure to do business with. Their knowledge is great. Their service is outstanding. You always feel completely supported. If you don't understand something or have an issue with your machine, they are on the phone or their friendly technicians are on site very promptly to assist. Cannot recommended highly enough."

(Ben Nas, Lelox - NSW)

The Performatec Pledge:

- **Partnership** - We commit to forging enduring alliances, understanding your aspirations and requirements, and customising solutions that propel your enterprise.
- **Expertise** - We'll share our profound knowledge and vast industry networks to provide access to superior service, machinery and components.
- **Support** - Our support is uncompromising. We promise smooth integration, swift problem-solving and peak efficiency.
- **Growth** - Our commitment to your long-term success focuses on your continuous improvement and expansion.

BAYKAL HGL

The swing-beam shear designed for precision.

The HGL hydraulic swing-beam shear combines robust engineering with precision cutting capabilities, making it the ideal choice for fabrication workshops demanding reliability and accuracy.

With cutting lengths up to 4100mm and the ability to handle mild steel up to 8mm thick, this machine delivers consistent performance for your daily cutting needs.

Built with a welded all-steel frame and box-type construction, the HGL ensures maximum rigidity and cutting accuracy across its entire working length

Key Features

- Rapid blade gap adjustment system for quick material thickness changes
- Stainless steel cutting blades with multiple cutting edges for extended life
- CybTouch 8 NC controller ensuring precise back gauge positioning
- Powerful hydraulic hold-downs and 750mm travel back gauge for optimal material control

Indicative Pricing		
Model	Cutting Length	Price Indication
HGL 2106	2060	\$70,000 - \$85,000
HGL 2606	2560	\$75,000 - \$90,000
HGL 3106	3060	\$80,000 - \$95,000
HGL 3108	3060	\$90,000 - \$105,000
HGL 4106	4060	\$115,000 - \$130,000

BAYKAL MGH

Ideal for demanding work loads.

The MGH hydraulic swing-beam shear sets the benchmark for heavy-duty metal cutting operations, delivering exceptional performance for materials up to 20mm thick.

Engineered with industrial-grade components and featuring cutting lengths up to 4100mm, this powerhouse combines robust construction with precise control systems.

The MGH's high-visibility design and advanced safety features make it the go-to choice for fabricators handling demanding production schedules and thick materials.

Key Features

- Variable rake angle system for optimised cutting force
- High-visibility front guard design for enhanced operator control
- Cybelec CybTouch 8 NC controller for intuitive operation
- Premium Bosch Rexroth hydraulics ensuring reliable, powerful performance

Indicative Pricing		
Model	Cutting Length	Price Indication
MGH 3106	3060	\$100,000 - \$115,000
MGH 3110	3060	\$120,000 - \$135,000
MGH 3113	3060	\$135,000 - \$150,000
MGH 3116	3060	\$165,000 - \$180,000
MGH 3120	3060	\$200,000 - \$220,000
MGH 4110	4060	\$145,000 - \$160,000
MGH 4113	4060	\$165,000 - \$185,000

Heavy-duty power meets intelligent control.

The HNC hydraulic variable-rake guillotine stands as Baykal's flagship cutting solution, engineered for precision cutting of materials up to 25mm thick.

With cutting lengths up to 6100mm and advanced CNC control, this machine automatically optimises blade gap, back gauge position, cutting angle, and stroke length for maximum efficiency. The variable rake design minimises sheet twisting during cuts, while the sturdy ST44-2 steel construction ensures lasting accuracy and reliability.

The HNC's intelligent control significantly increases stroke speed by simultaneously adjusting multiple parameters, making it ideal for high-volume production environments

Key Features

- Variable rake CNC control
- Cuts up to 25mm steel
- Deep 350mm throat gaps
- Automatic parameter optimisation
- Premium hydraulic system
- Ball screw backgauge guide, which supports large, heavy sheets.
