Objective:

Dice Eliminator Partner Challenge – Family Edition is a cooperative, strategy-based game where pairs work together to complete challenges tied to dice roll outcomes. The goal is to eliminate all numbers from 2 through 12 on your game sheet before the other teams, blending luck, strategy, physical activity, and teamwork into one exciting challenge.

Players:

Played in pairs, making it perfect for family gatherings or group activities. The game can be easily adapted to suit various group sizes.

Materials:

- Two six-sided dice per team.
- A Dice Eliminator game sheet for each team (available in the provided PDF or a custom version).
- A score sheet and pen (optional, for tracking progress).

Setup:

1. Form Pairs:

- Divide the family into pairs, ensuring each pair has a partner.

2. Distribute Materials:

- Give each team two dice and one game sheet.

3. Review Challenges:

- Have each team read through the challenges associated with numbers 2 through 12 on their game sheet, so everyone knows what to expect.

Gameplay:

1. Rolling and Challenges:

- Teams roll both dice, add the numbers, and check their game sheet to see which challenge corresponds to that total.
- For example, if a team rolls a 3 and a 5 (totaling 8), they'll look up the challenge linked to the number 8.

2. Eliminating Numbers:

- Successfully completing the challenge allows the team to cross off that number from their game sheet.
- If the challenge isn't completed, the number remains and they must try again later.

3. Repeat Rolls:

- If a team rolls a number they've already eliminated, they perform a star jump (or another designated exercise) before rolling again.
- This keeps everyone active and adds a fun twist to the game.
