**GET TO KNOW**  
**ACCOUNTING**  
**& FINANCE**

# Introduction

Accounting is concerned with the provision of financial information for a variety of business purposes, including making decisions, planning and controlling activities, performance measurement and meeting external reporting and tax requirements. Accounting and Finance are woven into the fabric of our everyday lives and form an essential ingredient in any effective organisation.

## Course Organisation

An Honours degree in England, Wales and Northern Ireland, would take 3 years in duration. An Honours degree in Scotland would take 4 years. However, Scottish universities do provide an ordinary degree at the end of the third year. Students with A level (or equivalent qualification), may also be able to obtain advanced entry, to some Scottish degrees (particularly Science and Engineering degrees), though not to all Accounting related degrees in Scotland – please check individual university requirements.

There are some programmes which incorporate a ‘sandwich’ element whereby students work under industrial placement for one year. The duration of these sandwich courses are therefore 4 years in total, indicated in the Course Codes & Fees section of this booklet as “4SW”. The tuition fees for the sandwich year is often a fraction of the normal fees and students are usually paid a salary.

# Course Content

In general, introductory accounting is usually concerned with the principles of recording transactions, determining profits and valuing assets, as well as the presentation and interpretation of financial reports. Subsequent study may be a continuation of first year work, sometimes concentrating on particular aspects of financial accounting, or may concentrate on relating the subject to general problems of business, usually by dealing with cost and management accounting. Here, accounting is seen as a crucial aid to management decision making in the areas of costing, investment, budgetary control, external and internal financing and future financial planning.

The degrees included in the handout, while focused on Accountancy and Accountancy & Finance degrees, come with various titles – Accountancy, Accounting, Accounting & Finance, etc. Do not judge a degree by its title only. For example, do not assume that a degree titled Accountancy will not include any modules in Finance – most will. Please refer to official university websites and the UCAS website for information on other Accounting related degrees.

Make sure you find out about the syllabus of each degree, by looking this up on the university website – every degree has its own unique features i.e. subjects being offered, modes of assessment (for example, written exams or continuous assessment – or both), opportunities for industrial placement, etc.

You should decide on a degree which contains courses that meet your interests and expectations and which allows flexibility.

02

**APPLYING FOR  
ACCOUNTING  
& FINANCE**

## How it works

Applications for undergraduate degrees for most of the UK universities go via UCAS. You will need to register and complete the UCAS form, with payment, by the set deadline. Colleges will usually set internal deadlines for their students. With the exception of Oxford and Cambridge, the UCAS deadline for competitive universities is January 14, 2026.

The final deadline of UCAS application is June 30.

# Course Codes & Fees

<b>York</b>	NN42 / NN4F Accounting, Business Finance and Management	3FT / 4SW	£25800	A level: AAB IB: 35	

## Entry Requirements

Most universities do not specify subjects required at A Levels for entry. However, a few competitive universities do prefer students with A Levels Mathematics or equivalent, and this is indicated in the **Course Codes & Fees** section of this booklet. Please check individual university web sites for the latest information.

### Non-Academic Requirements

- Strong analytical abilities
- Ability to evaluate and critically assess complex issues
- Ability to communicate complex ideas with clarity
- Attention to detail
- Intellectual curiosity

## Selectors' Attitude

Your UCAS application is always considered as a whole; taking into account your qualifications, experience, personal statement and reference, as well as predicted grades for A Level / IB / STPM.

## Personal Statement

Students need to outline personal characteristics, skills and attributes and how that relates to the current academic study and chosen degree course. Additional reading or relevant experiences in or outside of school which led you to choosing Accounting and Finance should also be included. Students' efforts and initiatives in making the most of the opportunities available to them to deepen their knowledge and understanding of their intended programme of study is highly desirable.

Extracurricular activities can also be included to indicate that you can multitask and have a wide range of interests and skills.

*(Source: LSE website)*

UCAS has implemented a system called the UCAS Similarity Detection Service to verify the authenticity of Personal Statements. If significant amounts of similarities are detected and the Verification staff decides to flag a personal statement, the university and the applicant will be notified via email by UCAS.

## Career Path

The Malaysian Institute of Accountants (MIA) is the country's national accountancy body and is empowered by law to regulate the accountancy profession in Malaysia. All persons practising as an accountant or auditor in Malaysia are registered with the MIA.

The MIA recognises the qualifications obtained from specific professional accountancy bodies for the purposes of being admitted into the Institute. Persons with overseas degrees must obtain membership of these bodies in order to be admitted into the MIA.

UK professional accountancy bodies recognised by the MIA include:

- The Association of Chartered Certified Accountants (ACCA)
- Chartered Institute of Management Accountants (CIMA)
- Institute of Chartered Accountants of England and Wales (ICAEW)
- Institute of Chartered Accountants of Scotland (ICAS)
- Chartered Accountants Ireland (The Institute)

Graduates from universities in the UK will obtain various exemptions from the exams of the above-named professional bodies. Please check with individual professional accountancy bodies for details of exemptions. Please note that the syllabus for professional exams and position on exemptions does change from time to time. Please check the following websites for the latest information:

ACCA: [www.accaglobal.com](http://www.accaglobal.com)

CIMA: [www.cimaglobal.com](http://www.cimaglobal.com)

ICAEW: [www.icaew.ac.uk](http://www.icaew.ac.uk)

# “How can MABECS help me?”

If all that information is making you feel overwhelmed, don't worry. You're not alone. Countless students have felt the same way and they've found it helpful to consult MABECS for their UK degree applications. For an overview of our services, check out the Inside Front Cover page.

Here is how your MABECS Education Advisor can help you in detail:

1

## BEFORE APPLYING

MABECS provides detailed information on:

- UK universities' environment, fees, and facilities
- course structure, content and specialisation
- entry requirements and university standards
- specific university's research ratings and teaching quality assessments

We can also recommend suitable and relevant universities based on your academic results and preferences.

2

## APPLICATION

MABECS provides detailed information on:

- undergraduate degree application explained from start to end
- personal guidance for your Personal Statement
- mock interviews
- monitoring the progress of your application
- providing advice at stages where important decisions need to be made
- being the intermediary (middle person) between you and universities if our assistance is required
- counselling sessions with visiting UK admissions tutors and university representatives
- IELTS registration with the British Council

3

## PRE-DEPARTURE HELP

MABECS provides guidance on:

- visa applications
- accommodation arrangements
- flight bookings

## About Us

MABECS was set up in 1985 to assist students in Malaysia to find suitable places at universities in the United Kingdom.

Since 1985, students we have counselled have successfully enrolled in top UK universities – both at undergraduate and postgraduate levels.

Whether you're an individual student seeking counselling for your UK degree application, or an education institution hoping to achieve the same for your pre-university students, MABECS is here to help.

Visit our website at [www.mabecs.com](http://www.mabecs.com) for a quick overview of how MABECS helps students from start to end of their UK degree application process. You'll also find many helpful articles on studying in the UK, including real student stories!
