

Level Funded Plans

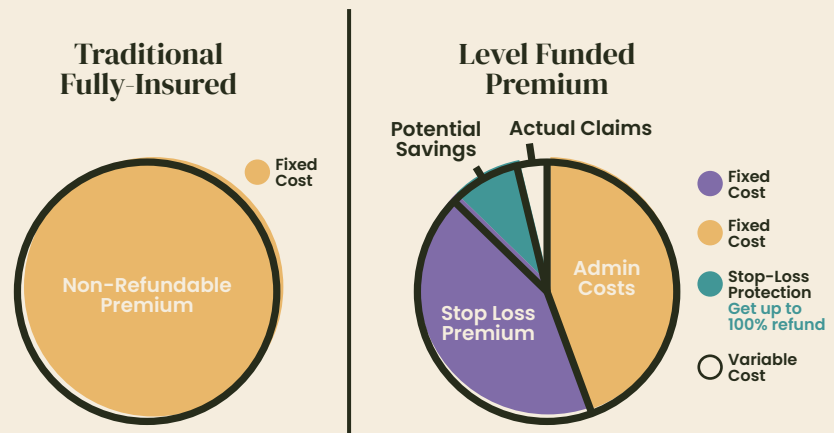

Angle Health Insurance – Built with the whole you in mind

Angle Health's level funded plans offer flexibility to choose health insurance plan designs and coverage options that can reduce the costs of healthcare benefits. The comprehensive benefits can seamlessly support your business and employees' healthcare needs. Angle Health offers level funding plans to employers that enroll 5 or more full-time employees.

Retain Ownership Lower Costs

Angle Health has designed a level funding product that pairs the financial certainty of a fully insured plan with the cost-savings of a "self-insured" plan. It's easy to see why 31% of small firms enrolled in Level Funded or Self-Insured plans.

Key Features

- **Predictable Costs** – Fixed payment each month even if your claims are higher than expected. And if your claims are lower, you get to share in the savings with a potential surplus refund.
- **Stop Loss Protection** – Limit your exposure to catastrophic medical claims of a covered individual or your company's overall experience through comprehensive stop-loss coverage.
- **Plan Design Flexibility** – Angle offers comprehensive benefits that your employees actually want, with coverage that's easy to understand.
- **Risk Assessment** – Your risk pool is evaluated individually, instead of using ACA community ratings, for employers with fewer than 50 employees, which can result in immediate cost savings for younger, healthier demographics.
- **A Seat at the Table** – With robust and transparent utilization reporting, you can make smarter, data-driven decisions.
