India significantly contributes to Israel's arms trade, ranking as one of its foremost weapons importers with an estimated annual value of $1 billion in imports. This substantial flow of weaponry highlights a significant partnership between the two countries. This partnership has involved collaborative military exercises, reciprocal police and army training programs.

This growing arms trade intensifies repression within India, particularly impacting the Muslim population. This repression is evident in Kashmir, where, in August 2019, the Indian government suspended the autonomy of India-administered Kashmir, one of the most militarized zones in the world.

Beyond arms sales to India, Israel’s major military companies have outsourced the production of vital components to Indian counterparts. India-based companies produce goods and components for Israeli arms companies such as Elbit Systems and Rafael. They participate directly in the production of arms used by the Israeli military — currently carrying out a genocidal assault on Gaza.

Complicit companies include publicly-owned defense giants such as HAL and Bharat Electronics as well as medium-sized enterprises that produce electrical components or machined parts. Many have manufacturing facilities located in a broad cluster around Bengaluru and use the Bengaluru airport for shipping to Israel.

Below we provide data on the major India-based arms manufacturers supplying Israel’s main military companies - Elbit Systems, Israel Aerospace Industries (IAI) and Rafael Advanced Defense Systems.

---

**ELBIT SYSTEMS**

Elbit Systems is the largest Israeli publicly traded arms producer and the 21st largest in the world. Many of the company’s products are currently in use by the Israeli military in its assault on Gaza, including the armed UAV Hermes 450.

Major India-based suppliers to Elbit:

**Alpha Design Technologies Pvt Ltd**
Manufacturing facility: 20, Aerospace SEZ Sector, Hitech Defence and Aerospace Park Kavadadasanahalli, Devanahalli, Taluk, Bengaluru, Karnataka 562110, India
www.adtl.co.in

The company manufactures electronic equipment. It supplies Elbit with components including thermal imagers, receiver-transmitters, adapters, display units, and more. It also supplies IAI (see below). Alpha Design Technologies is a subsidiary of the Indian multinational conglomerate Adani Group.

Total value of Elbit orders, 2020-23: $58 million
Total value of IAI orders, 2020-23: $23 million
Alpha-Elsec Aerospace Systems Pvt Ltd
Manufacturing facility: 193/b, 4th Cross Rd, Peenya 1st Stage, Peenya II Phase, Peenya, Bengaluru, Karnataka 560058, India

The company produces SkyStriker loitering munition and opto-electronic defense systems (space cameras) for Elbit. Alpha-Elsec Aerospace Systems Pvt Ltd is a joint venture between Adani-owned Alpha Design Technologies (ADTL, 51%) and Elbit (49%).

Total value of Elbit orders, 2020-23: $54 million

Tata Advanced Systems
Manufacturing facility: Hardware Park, Plot No. 21, Sy No. 1/1, Imarat Kancha Raviriyala village Maheshwaram Mandal, Telangana 501218, India.

www.tataadvancedsystems.com

The company produces electronic components such as receivers and computers for Elbit. Tata Advanced Systems is a subsidiary of the Indian multinational Tata, active in aerospace manufacturing, military engineering and defense technology.

Total value of Elbit orders, 2020-23: $22 million

Wave Mechanics Pvt Ltd
Manufacturing facility: V 3, 1st Main Rd, 1st Stage, Peenya, Bengaluru, Karnataka 560058, India.

www.wave-mechanics.com

The company produces machined precision metal parts for Elbit’s aircrafts, including brake assemblies, flaps, mounts, housings and other pieces. Wave Mechanics Pvt Ltd is a subsidiary of the KAHM Group (owned by Dalmia family).

Total value of Elbit orders, 2020-23: $10 million
Total value of Rafael orders, 2020-23: $850,000

Bharat Electronics Ltd
Manufacturing facility: 2HX6+G35, Jalahalli, Bengaluru, Karnataka 560013, India

www.bel-india.in

The Indian state-owned aerospace and advanced defense electronics company produces a wide range of electrical components. The company supplies parts, including goniometers, lasers, compasses, sensors, cable assemblies, and telescopes for Elbit and Rafael. It also produces parts from fire control computer assemblies to radars for IAI.

Total value of Elbit orders, 2020-23: $28 million
Total value of IAI orders, 2020-23: $46 million
Total value of Rafael orders, 2020-23: $7 million

Adani-Elbit Advanced Systems India Ltd
Manufacturing facility: 7F66+6R5, Pahadi Shareef, Hyderabad, Telangana 501218, India

The company is the first outside Israel to produce the Hermes 900 UAV (unmanned aerial vehicle), a medium-size reconnaissance and surveillance drone that can also carry a payload. This drone was first used during Operation Protective Edge in Gaza in 2014 by the IDF. Adani-Elbit Advanced Systems produces fuselage assemblies for Elbit and is a joint venture between the conglomerate Adani Group (51%, via Adani Aero Defence Systems & Technologies Ltd) and Elbit (49%).

Total value of Elbit orders, 2020-23: $8 million

Amphenol Interconnect Pvt Ltd
Manufacturing facility: 61, Electronics City Phase 1, Electronic City, Bengaluru, Karnataka 560100, India.

www.amphenol-in.com

The company, a subsidiary of Amphenol Corporation, a major electronic and fibre optic systems manufacturer listed on the NYSE, produces electronic interconnectors for Elbit and Rafael Advanced Defence Systems. It includes another Amphenol subsidiary, Amphetronix Offset Interconnect Solutions Pvt Ltd.

Total value of Elbit orders, 2020-23: $6.6 million
Total value of Rafael orders, 2020-23: $5.6 million

SASMOS HET Technologies Ltd
Manufacturing facility: Plot no -1 and 2, KIADB Aerospace SEZ KIADB industrial area, Channarayapatna, hobli, Devanahalli, Bengaluru, Karnataka 562110, India.

www.sasmos.com

The company produces electrical interconnection systems, electromechanical assemblies, and other electronic sub-systems used by IAI. It also supplies
parts to the Israeli companies Elbit Systems and Rafael Advanced Systems. SASMOS HET Technologies Ltd operates internationally including in the UK.

**Total value of Elbit orders, 2020-23: $5.9 million**
**Total value of IAI orders, 2020-23: $63 million**
**Total value of Rafael orders, 2020-23: $3.1 million**

**Mahindra Aerostructures Pvt Ltd (Mahindra Aerospace)**
Manufacturing facility: 251(p), 252 to 264, 265(P), Narasapura Industrial Rd, Area, Karinaikanahalli, Karnataka 563101, India.

www.mahindraaerospace.com

The company produces aviation parts for Elbit as well as Boeing, GKN and other major defense and aerospace companies that sell weapons technologies to Israel. Mahindra Aerostructures Pvt Ltd is a fully-owned subsidiary of Mahindra & Mahindra, a major Indian auto manufacturer,

**Total value of Elbit orders, 2020-23: $300,000**

---

**ISRAEL AEROSPACE INDUSTRIES (IAI)**

IAI is the 29th largest arms company in the world. The Israeli-state-owned company produces fighter jets, missiles, air defense systems, and drones. At least two types of IAI drones are being used by the Israeli military in Gaza.

Major India-based suppliers to IAI:

**SASMOS HET Technologies Ltd**
Manufacturing facility: Plot no -1 and 2, KIADB Aerospace SEZ KIADB industrial area, Channarayapatna, hobl, Devanahalli, Bengaluru, Karnataka 562110, India.
www.sasmos.com

The company produces electrical interconnection systems, electromechanical assemblies, and other electronic sub-systems used by IAI. It also supplies parts to the Israeli companies Elbit Systems and Rafael Advanced Systems. SASMOS HET Technologies Ltd operates internationally including in the UK.

**Total value of IAI orders, 2020-23: $63 million**
**Total value of Elbit orders, 2020-23: $5.9 million**
**Total value of Rafael orders, 2020-23: $3.1 million**

**Hindustan Aeronautics Ltd (HAL)**
Manufacturing facility: 15/1, Cubbon Rd, Shivaji Nagar, Bengaluru, Karnataka 560001, India.

www.bel-india.in

The Indian state-owned aerospace company produces fighter jets, helicopters, other military aviation, and components. The company produces a multitude of aviation parts for IAI, including items from turbocharger assemblies to payload assemblies to display modules. It also produces parts from turret assemblies to night vision goggles for Elbit.

**Total value of IAI orders, 2020-23: $48 million**
**Total value of Elbit orders, 2020-23: $41 million**

**Bharat Electronics Ltd**
Manufacturing facility: 2HX6+G35, Jalahalli, Bengaluru, Karnataka 560013, India

www.bel-india.in

The Indian state-owned aerospace and advanced defense electronics company produces a wide range of electrical components. The company produces parts from fire control computer assemblies to radars for IAI. It also supplies parts, including goniometers, lasers, compasses, sensors, cable assemblies, and telescopes for Elbit and Rafael.

**Total value of IAI orders, 2020-23: $46 million**
**Total value of Elbit orders, 2020-23: $28 million**
**Total value of Rafael orders, 2020-23: $7 million**

**Alpha Design Technologies Pvt Ltd**
Manufacturing facility: 20, Aerospace SEZ Sector, Hi-tech Defence and Aerospace Park Kavadadasanahalli, Devanahalli, Taluk, Bengaluru, Karnataka 562110, India
www.adtl.co.in

The company manufactures electronic equipment. The IAI supplier also supplies Elbit Systems with components including thermal imagers, receiver-transmit-
ters, adapters, display units, and more. Alpha Design Technologies is a subsidiary of the Indian multinational conglomerate Adani Group.

**Total value of IAI orders, 2020-23:** $23 million  
**Total value of Elbit orders, 2020-23:** $58 million

**Cyient DLM Pvt Ltd**  
Manufacturing facility: Hebbal Industrial Estate, Hebbal, Ilavala Hobli, Mysuru, Karnataka 570027, India.  
[www.cyient.com](http://www.cyient.com)

The publicly-traded Indian technology multinational produces electronic components for IAI and Rafael, including printed circuit board assemblies.

**Total value of IAI orders, 2020-23:** $22 million  
**Total value of Rafael orders, 2020-23:** $4 million

**Indo-MIM Pvt Ltd**  
Manufacturing facilities: #45(P), KIADB Industrial Area Doddaballapur, Industrial Estate, Bengaluru, Varadanahalli, Karnataka 561203, India.  
#45[P], KIADB Industrial Area, Hoskote, Bengaluru, Chokkahkanali, Karnataka 562114, India.  
[www.indo-mim.com](http://www.indo-mim.com)

The company, an IAI supplier, has the world’s largest installation capacity for the metal injection moulding (MIM) manufacturing process, producing machined precision parts via MIM (primarily Carbon Fiber Sheet Moulding Compound, or CSMC) for IAI.

**Total value of IAI orders, 2020-23:** $21 million

**Ace Inotech Manufacturing Pvt Ltd**  
Manufacturing facility: 2GC5+973, Shivapura, Peenya, Bengaluru, Karnataka 560058, India  
[www.aceinotec.com](http://www.aceinotec.com)

The company produces high-precision machined metal components, including pistons and receivers for IAI.

**Total value of IAI orders, 2020-23:** $21 million

**Defsys Solutions Pvt Ltd**  
Manufacturing facility: Cholappanahalli, 562114 Chinannapana Halli 1st Main Road KIADB Export Promotion Industrial Area, Bengaluru, Chokkahkanali, Karnataka 560037, India.  
[www.defsys.co.in](http://www.defsys.co.in)

A manufacturer and supplier of electronic and electro-optical systems for IAI and Rafael.

**Total value of IAI orders, 2020-23:** $5.8 million  
**Total value of Rafael orders, 2020-23:** $3.2 million

**SEC Industries Pvt Ltd**  
Manufacturing facility: 6-25, Opp. IDPL Factory, Bhanvani Nagar, Balanagar, Hyderabad, Balanagar-Ida, Telangana 500037, India  
[www.secindustries.com](http://www.secindustries.com)

The company provides a wide range of aerospace components via precision tooling, including UAV launchers, fuel trailers, air purifiers, and other components for IAI.

**Total value of IAI orders, 2020-23:** $5.1 million

**Rangsons Aerospace Pvt Ltd**  
Manufacturing facility: # 9, KIADB Industrial Area, Sy 35, Part 36,42. Pura Village, Belagola Hobli, Shriranga Patna, Mandya – 571, 401, Hebbal Industrial Estate, Hebbal Industrial Area, Mysuru, Kuppedada, Karnataka 571401, India.  
[rangsons aerospace.com](http://rangsons aerospace.com)

The company produces aviation hose and tube assemblies for IAI and is part of the family-run conglomerate NR Group.

**Total value of IAI orders, 2020-23:** $2.9 million

**Kineco Kaman Composites India Pvt Ltd**  
Manufacturing facility: Plot No. 60, Bardez, Pilerne Industrial Estates, Pilerne, Marra, Goa 403511, India.  
[www.kinecokamanindia.com](http://www.kinecokamanindia.com)

The company, an IAI supplier, produces composite structural parts and assemblies for defense including parts for aircraft, helicopters, UAVs and spacecraft. Kineco Kaman Composites India Pvt Ltd is a joint venture between US-based Kaman Aerospace Group and Kineco Ltd (India).

**Total value of 2022 orders:** $2.2 million

**Rafael Advanced Defense Systems**  
Rafael is the 34th largest arms producer in the world
and Israel's third largest. The Israeli state-owned company produces missile systems, including missiles for the Iron Dome, and other arms.

Major India-based suppliers to Rafael:

**Kalyani Rafael Advanced Systems Pvt Ltd**
Marketing facility: 24C, Hardware Park, Kancha Imarat, Survey No: 1/1, Maheshwaram Mandal Shamshabad, Dist, Hyderabad, Telangana 500005, India.
www.krasindia.com

The company produces Spike anti-tank guided missiles for Indian use as well as components for shipment to Israel, including electronic kits and missile control sections. Kalyani Rafael Advanced Systems Pvt Ltd is a joint venture between Kalyani Group industrial conglomerate (51%) and Rafael (49%).

**Solar Industries India**
Manufacturing facility (likely): No. 37-39 & 78-83, Amravati Road, Bazargaon, Teh: Katol, Dist.: Nagpur, Maharashtra 440023, India
Corporate office: Solar House, 14, Amravati Rd, Kachimet, Nagpur, Maharashtra 440023, India
www.solargroup.com

The company is India's largest producer of explosives for industrial and defense uses. It supplies Rafael with explosives.

**Bharat Electronics Ltd**
Manufacturing facility: 2HX6+G35, Jalahalli, Bengaluru, Karnataka 560013, India
www.bel-india.in

The Indian state-owned aerospace and advanced defense electronics company produces a wide range of electrical components. The company produces parts from fire control computer assemblies to radars for IAI. It also supplies parts, including goniometers, lasers, compasses, sensors, cable assemblies, and telescopes for Elbit and Rafael.

**Amphenol Interconnect Pvt Ltd**
Manufacturing facility: 61, Electronics City Phase 1, Electronic City, Bengaluru, Karnataka 560100, India.
www.amphenol-in.com

The company, a subsidiary of Amphenol Corporation, a major electronic and fibre optic systems manufacturer listed on the NYSE, produces electronic interconnectors for Rafael Advanced Defence Systems and Elbit Systems. It includes another Amphenol subsidiary, Amphetronix Offset Interconnect Solutions Pvt Ltd.

**Cyient DLM Pvt Ltd**
Manufacturing facility: Hebbal Industrial Estate, Hebbal, Ilavala Hobli, Mysuru, Karnataka 570027, India.
www.cyient.com

The publicly-traded Indian technology multinational produces electronic components for IAI and Rafael, including printed circuit board assemblies.

**Defsys Solutions Pvt Ltd**
Manufacturing facility: Cholappanahalli, 562114 Chinnapana Halli 1st Main Road KIADB Export Promotion Industrial Area, Bengaluru, Chokkahalli, Karnataka 560037, India.
www.defsys.co.in

A manufacturer and supplier of electronic and electro-optical systems for IAI and Rafael.

**SASMOS HET Technologies Ltd**
Manufacturing facility: Plot no -1 and 2, KIADB Aerospace SEZ KIADB industrial area, Channarayapatna, hobi, Devanahalli, Bengaluru, Karnataka 562110, India.
www.sasmos.com

Total value of Rafael orders, 2020-23: $7 million
