

Julie Paik

Product Designer with 6+ years experience in enterprise UX design, design systems, and frontend engineering

EXPERIENCE

FOUNDING PRODUCT DESIGNER / PRODUCT MANAGER

NOVINOPATH | REMOTE - NEW YORK, NY Aug 2025 - Jan 2026

- Led end-to-end design of an AI-assisted Laboratory Information System (LIS) to digitize anatomic pathology (regulated, data-heavy clinical environment requiring zero-error UX for cancer diagnosis workflows)
- Collaborated with engineering and data teams to integrate AI into the LIS + Image Management System (IMS) to support preliminary cancer diagnosis and gather critical research data for doctors
- Conducted field research at clinical labs to observe lab tech and pathologist workflows, identifying pain points to reduce turnaround time, lower compliance burden, and improve audit traceability
- Transcribed CAP/CLIA regulatory requirements and integrated automation of billing codes to streamline complex diagnostic workflows into intuitive, error-resistant experiences for lab techs, pathologists, and directors
- Led design system buildout, adoption, and Storybook documentation across a multi-role product surface, ensuring consistency and scalability

PRODUCT DESIGNER

PANDIUM | REMOTE - NEW YORK, NY Jun 2025 - Aug 2025 (contract)

- Led redesign of integration platform serving 6,500+ businesses processing 1.5B+ monthly records, designing onboarding and configuration flows for both developers and non-technical admins across integration setup, release management, and tenant management
- Led design system contribution and adoption efforts, creating reusable, variant-driven component patterns and mentoring designers on systems thinking and code-adjacent collaboration with engineering

PRODUCT DESIGNER

BANK GREEN | REMOTE Apr 2024 - Jun 2025

- Led implementation and documentation of Design System, establishing component variants and usage guidelines adopted across product surfaces
- Reduced AI policy rating workflow time by 40% through design improvements validated via usability testing

PRODUCT DESIGNER

VINEYARD APP CAMP | REMOTE Feb 2024 - Oct 2024 (contract)

- Improved education SaaS management workflow efficiency by 39% through streamlined setup flows and simplified information architecture
- Conducted user testing to validate user flows and wireframes, designing interactive mobile and web prototypes

PRODUCT DESIGNER

ECHODIAL | REMOTE Oct 2022 - Dec 2023

- Owned end-to-end iterative UX design for insurance broker SaaS CRM and autodialer, establishing consistent interaction patterns across platform

EDUCATION

THE UNIVERSITY OF TEXAS AT AUSTIN

BA, Plan II Honors ([about](#))

BSA, Computer Science

MENTO DESIGN ACADEMY

Certificate, Digital Product Design

SKILLS

Design

Wireframing
Prototyping
Product strategy
Information architecture
Design systems

Tools

Claude Code
Figma + Figma MCP
Cursor
VS code
Claude Design
Miro
Adobe Creative Suite
GitHub
Jira
Webflow

Research

User research
User interviews
Concept testing
Usability testing
Heuristic analysis
Personas
Competitive analysis
User stories

Code

React
JavaScript
HTML5
CSS
React Native
TypeScript

SERVICE & OTHER

AMERICORPS, CITIZEN SCHOOLS

National Teaching Fellow, Data Lead

THE DAILY TEXAN

Copy Editor - headlines and design for the Life & Arts page

- Collaborated with engineers on reusable UI flows to reduce technical and UX debt

SOFTWARE ENGINEER

Feb 2017 - Nov 2022

ALPHASIGHTS, OUI THERAPEUTICS, HIVEIO, RED HAT | NEW YORK, NY

- 3 years React/React Native/Typescript engineering work in close collaboration with Senior Product Designers, bridging design intent and frontend implementation
- At AlphaSights, cross-collaborated with design and engineering teams on design system adoption, defining component APIs to ensure seamless migration across products
- Shipped dashboards and flows that centralized SaaS workflows, supporting enterprise platforms serving millions of users (\$535M annual rev at AlphaSights, 2M+ clients, projected to save \$26B at Red Hat)
