# About Fliteline

## Trusted Experts in Group Air Charter for Over 30 Years

For over 30 years, Fliteline has been the aviation partner organizations trust when scheduled group flights or conventional freight solutions simply fall short. Founded in 1994 by true aviation enthusiasts in the heart of European aviation, we’ve built our reputation by delivering seamless group air charters and overcoming even the most demanding logistics, whether moving hundreds of passengers or urgent cargo.

Fliteline’s reputation was further elevated in 2007 by joining the Rhenus Group, gaining world-class logistics resources while preserving the hands-on, solution-led service ethic that sets us apart. We’re not just coordinating flights; we’re solving mobility and supply chain challenges alongside professionals who understand the stakes, ensuring groups, teams, and critical cargo all reach their destinations reliably, on time, and with personal care. This version emphasizes group charter as the primary capability, seamlessly referencing Fliteline’s cargo expertise for credibility and cross-sell, and highlights the company’s problem-solving approach for clients facing more than “standard” travel or logistics needs.

## Our Group Charter Heritage

Fliteline’s group charter heritage is built on more than three decades of consistently delivering safe, reliable air travel for organizations, institutions, and communities worldwide.
