First 3,000 CCF .....	@ Index Cost + \$.005 + \$.305 + SNG Fuel Retention Cost per MMBtu + Demand Charge
Over 3,000 CCF .....	@ Index Cost + \$.005 + \$.195 + SNG Fuel Retention Cost per MMBtu + Demand Charge

\*Rates are applicable to on time payments. All rates are based on gas with heating value of 1,000 MMBtu per cubic foot.

\*\*The minimum monthly bill is to be paid every month, regardless of any usage amount or not.

\*\*\*CCF = 100 Cubic Feet. The volumetric charge for Residential, Commercial and Agricultural customers ("Tarriff Customers") is based on an expected cost of gas of \$4.23 per MCF ("Budgeted Pricing"), which includes both fixed price positions (hedged volumes) along with variable price volumes which are based upon index-bases pricing (unhedged volume). The volumetric charge for Tariff customers shall be adjusted each month by a Purchased Gas Adjustment or PGA, which shall reflect the positive or negative difference between actual gas costs and budgeted Pricing as applied to actual volumes of gas purchased by CJG for delivery to Tariff Customers. Contact CJG for updated rates.

\*\*\*\*Eligibility based upon usage over 80,000 CCF in annually. Demand charge based upon volume used on annual peak usage day.
