THE CULLMAN JEFFERSON COUNTIES GAS DISTRICT
Residential Rate Schedule
May, 2026

Availability
To residential customers of CJ Gas.

Rate
Subject to the Minimum Bill, the Rate per CCF for all gas taken shall be:

- For the first 40 CCF purchased in a month, $1.172 per CCF
- For all gas purchased in a month in excess of 40 CCF, $0.996 per CCF

Plus applicable taxes. The Minimum Bill shall be $12.00 per month.

BTU Adjustment
Measurement is based on natural gas of 1,000 BTUs per cubic foot and is subject to adjustment in variance from this standard, either upward or downward in proportion to the increase or decrease in such average heating value of gas actually delivered during the period covered by each bill.

Purchased Gas Adjustment
The Rate is based on an expected weighted average wholesale cost of gas to CJ Gas of $3.66 per MMBtu ("Budgeted Pricing"), which includes both fixed priced positions (hedged volumes) along with variable priced volumes which are based on index-based pricing (unhedged volumes). The Rate shall be adjusted each month by a Purchased Gas Adjustment which shall reflect the positive or negative difference between actual gas costs and Budgeted Pricing.

Point of Delivery and Pressure
Gas service under this schedule is furnished through a single point of delivery and such gas shall not be shared or resold.

Gas will be delivered at utilization pressure normally furnished from the distribution system throughout the area. Except, when the usage of the Customer requires it, CJ Gas, at its option, may supply gas service at some other pressure.

Deposit
CJ Gas shall require a deposit prior to commencing service under this rate.

Terms of Contract
This Rate Schedule is subject to the *Rules and Regulations* of CJ Gas, as same may be adopted from time to time. Bills are due by the "Discount Date" shown on the bill; and only those paid by the Discount date shall receive the 6% discount.

Effective: For gas billed beginning May 1, 2026 **Board Adoption:**

THE CULLMAN JEFFERSON COUNTIES GAS DISTRICT
Commercial Rate Schedule
May, 2026

Availability
To commercial customers of CJ Gas not qualifying for the Large Commercial rate.

Rate
The Rate shall be the sum of the monthly customer charge (Minimum Bill) of $15.50 plus a volumetric charge per CCF for all gas taken of:

- For the first 150 CCF purchased in a month, $1.137 per CCF
- For the next 350 CCF purchased in a month, $1.080 per CCF
- For all gas purchased in a month in excess of 500 CCF, $1.023 per CCF

Plus applicable taxes.

BTU Adjustment
Measurement is based on natural gas of 1,000 BTUs per cubic foot and is subject to adjustment in variance from this standard, either upward or downward in proportion to the increase or decrease in such average heating value of gas actually delivered during the period covered by each bill.

Purchased Gas Adjustment
The volumetric charge is based on an expected weighted average wholesale cost of gas to CJ Gas of $3.66 per MMBtu ("Budgeted Pricing"), which includes both fixed priced positions (hedged volumes) along with variable priced volumes which are based on index-based pricing (unhedged volumes). The volumetric charge shall be adjusted each month by a Purchased Gas Adjustment which shall reflect the positive or negative difference between actual gas costs and Budgeted Pricing.

THE CULLMAN JEFFERSON COUNTIES GAS DISTRICT
LC RATE – LARGE COMMERCIAL Rate Schedule
May, 2026

Availability
To large commercial customers of CJ Gas using at least 80,000 CCF per year, based on average use over the prior twelve (12) months.

Rate
The Rate shall include the Monthly Reservation Fee and the Volumetric Charge, plus any applicable franchise fees and taxes.

The Monthly Reservation Fee shall initially be a minimum of 50 MMBtu per month multiplied by the then-current FT Reservation Charge for Southern Natural Gas Company, as same may be adjusted from time to time. Annually CJ Gas may adjust the Monthly Reservation Fee based on the customer's historic peak day usage during the preceding twelve months, but in no event shall the volume be less than 50 MMBtu.

The Volumetric Charge per MMBtu shall be the sum of the Gas Component and an O&M Charge consisting of:

- For the first 3,000 CCF purchased in a month, $3.05 per MMBtu.
- For all gas purchased in a month in excess of 3,000 CCF, $2.05 per MMBtu.

BTU Adjustment
Measurement is based on natural gas of 1,000 BTUs per cubic foot and is subject to adjustment in variance from this standard, either upward or downward in proportion to the increase or decrease in such average heating value of gas actually delivered during the period covered by each bill.

Gas Component
The Gas Component shall be the first of the Month Index price as published in Platts Inside FERC's Gas Market Report for Louisiana/Southeast, Southern Natural, La. (or successor pricing point), under the column "Index," which index cost changes monthly, plus $0.05/MMBtu, plus the prevailing SNG Transportation Fuel Retention for Zone 2.

Point of Delivery and Pressure
Gas service under this schedule is furnished through a single point of delivery and such gas shall not be shared or resold.

Gas will be delivered at utilization pressure normally furnished from the distribution system throughout the area. Except, when the usage of the Customer requires it, CJ Gas, at its option, may supply gas service at some other pressure.

Deposit
CJ Gas may require a deposit, letter of credit or Surety Bond prior to commencing service under this rate.

Terms of Contract
This Rate Schedule is subject to the *Rules and Regulations* of CJ Gas, as same may be adopted from time to time. Customer will pay CJ Gas by the 15th of each month for all gas delivered to customer during the preceding month an amount determined in accordance herewith. For all bills for which payment is not received by the last day of the month, a late charge of 6% per month on the unpaid balance shall be assessed until paid.

Effective: For gas billed beginning May 1, 2026 **Board Adoption:**
