MATERIAL COMPLIANCE DECLARATION

REACH · RoHS · PFAS · POP · TSCA · Conflict Minerals · Halogen-Free

Manufacturer / Supplier
Company: REKU Thermoforming Reckermann GmbH
Address: Werftstraße 4, D - 32602 Vlotho

---

1. REACH Regulation (EC) No. 1907/2006

We declare that the above products comply with the requirements of Regulation (EC) No. 1907/2006 (REACH) in its current version.

According to our current state of knowledge and on the basis of the information provided by our suppliers, the following applies:

- The products supplied are not subject to registration under Article 7 REACH.
- The products do not contain any substances from the current SVHC Candidate List in concentrations above 0.1% by weight (w/w), unless expressly stated otherwise.
- If substances on the Candidate List are contained above this limit value in the future, we will comply with our information obligations in accordance with Article 33 REACH.

---

2. RoHS Directive 2011/65/EU

We certify compliance with Directive 2011/65/EU, including amending Directive (EU) 2015/863.

The maximum permissible concentrations of the following substances shall not be exceeded:

- Lead (Pb)
- Mercury (Hg)
- Cadmium (Cd)
- Hexavalent chromium (Cr VI)
- Polybrominated biphenyls (PBB)
- Polybrominated diphenyl ethers (PBDE)
- DEHP
- BBP

- DBP
- DIBP

---

3. PFAS Declaration

According to our current state of knowledge, the supplied products do not contain any intentionally added per- and polyfluorinated alkyl substances (PFAS).

This statement is based on the material declarations and supplier declarations. A complete analytical examination of all possible PFAS compounds is not part of our quality assurance unless expressly agreed.

---

4. POPs Regulation (EU) 2019/1021

Based on our current knowledge, our products meet the requirements of Regulation (EU) 2019/1021 on persistent organic pollutants (POPs).

The products do not contain any prohibited or restricted POPs above the applicable limits.

---

5. TSCA Section 6 (USA)

To our current knowledge, our products do not contain any substances that are subject to the restrictions under Section 6 of the US Toxic Substances Control Act (TSCA) to the extent that these are applicable to the products supplied.

---

6. The conflict mineral

We support responsible and sustainable raw material procurement.

To our current knowledge, the minerals contained in our products do not come from conflict-affected or high-risk areas or have been sourced through responsible supply chains.

This applies in particular:

- Tin (Sn)
- Tantalum (Ta)
- Tungsten (W)
- Gold (Au)

Our statements are based on supplier statements and, where available, on the latest CMRT and EMRT reports from the Responsible Minerals Initiative (RMI).

---

7. Halogen-free

To the extent expressly marked or agreed to be halogen-free, the products comply with the requirements of IEC 61249-2-21 with regard to the limit values for:

- Chlorine (Cl)
- Bromine (Br)

---

8. Packaging materials (in accordance with PPWR – Regulation (EU) 2025/40)

Where applicable, our packaging meets the applicable requirements regarding the restriction of heavy metals as well as the European regulations on packaging and packaging waste. Insofar as our products are placed on the market as packaging or we supply packaging materials, we declare in particular conformity with the applicable requirements of the European Packaging Regulation (PPWR):

• Heavy metals: The sum of the concentration values of lead (Pb), cadmium (Cd), mercury (Hg) and hexavalent chromium (Cr VI) does not exceed the limit of 100 mg/kg in the packaging or its components at any time

• PFAS restriction: Our packaging does not contain per- and polyfluorinated alkyl substances (PFAS) above the legally defined limits

• Recyclate content in plastics: For our plastic packaging, we aim to comply with the minimum quotas for post-consumer recyclates (PCR) that will apply from 2030 and offer our customers appropriate material-optimized solutions on request.

---

9. Basis of this Statement

This statement is based on:

- Supplier declarations
- Material declaration
- Technical Data Sheets
- any existing test reports
- internal quality processes

A regular full chemical analysis of all materials and products is not carried out, unless this has been expressly agreed in the contract.

10. Disclaimer

This declaration reflects the state of knowledge at the time of issue. It is based on the information available to us from our suppliers and does not replace contractually agreed product specifications or legally required tests.

Changes in legal requirements or new findings within the supply chain may require an update of this statement.
