Industrious Office

Senior Product designer

Jun 21 - Apr 2023

Remote

- Lead designer on the team that brought internal products from 0 to 1.
- Led the complete redesign of a third-party-built invoicing platform;
 - Collaborated with Engineering to bring platform into our codebase;
 - Created user flows and conducted early user testing sessions;
 - Created invoice and budget visualization dashboards for users to access payment processing more easily.
- Led the creation and maintenance of our Product Design System, facilitating workshops between Marketing, Product Design and Engineering.
- Was the driving force behind migrating the design team from Sketch to Figma, kickstarting better collaboration and standardization of our internal design processes.

Breather

Senior Product designer

Jun 21 - Apr 2023

Remote

- Led the creation of a brand new Office Space Listing Creation platform as the sole Product Designer at the company;
 - Collaborated with the Product Manager and Engineering team to integrate design into the Agile workflow, leading to seamless collaboration and frequent successful feature delivery.
 - Delivered well-documented and pixel-perfect design files to Engineers.
- Created and maintained our Design System.

Stradigi AI

UI/UX Designer

Jun 21 - Apr 2023

Remote

- Participated in the ground-up creation of a visual interface for model-building workflows (Kepler)
 - Worked closely with Data Scientists and Machine Learning Researchers to integrate complex data science concepts into a simple visual interface
 - Collaborated with Senior UI/UX Designer to create user flows, site maps and visual language for the MVP
 - Worked closely with UX Researcher to integrate data-backed insights into product
- Took ownership of creating a Design System.

Sid Lee

Graphic Designer

Jun 21 - Apr 2023

Remote

- Built mockups and prototypes for various web and advertising projects.
- Created client pitch presentations, brand guides, illustrations and icons.
