

## What do you need to know about extracranial vascular anomalies in 2026?

Thursday, January 29, 2026, Time: 17:00-18:30 CET

Moderators: Annouk Anne Bisdorff-Bresson (Paris/FR), Gilles Soulez (Montreal/CA)

Presentation title	Speaker/Moderator	Duration (min)	Learning objectives	Type of element
Introduction by the moderator	Annouk Anne Bisdorff-Bresson (Paris/FR)	2		Intro
Update on ISSVA classification	Shellie Josephs (Portland/US)	10	Learn the ISSVA classification with the basic fundamentals on clinical presentation and genetic	Lecture
<i>Discussion and Q&amp;A</i>		5		Panel discussion
Imaging features of low and high flow malformations	Annouk Bisdorff (Paris/FR)	10	Learn the typical aspects on imaging of vascular malformations and their differential diagnosis	Lecture
<i>Discussion and Q&amp;A</i>		5		Panel discussion
Interventional management of low flow vascular malformation	Gregoire Boulouis (Tours/FR)	10	Interventional management of low flow vascular malformation (include both percutaneous and endovascular approaches and BEST technique)	Lecture
<i>Discussion and Q&amp;A</i>		5		Panel discussion
Interventional management of high flow vascular malformation	Gilles Soulez (Montreal/CA)	10	Interventional management of high flow vascular malformation (include BEST technique)	Lecture
<i>Discussion and Q&amp;A</i>		5		Panel discussion
<i>Case presentation</i>	Anna Maria Ierardi (Milan/IT)	10	Present 2 cases (include BEST technique)	Lecture
Discussion	Panel discussion	15	Case presentation and discussion	Panel discussion
Take-home points by moderator	Gilles Soulez (Montreal/CA)	3		Closing
