Serie	Beschreibung	Länge	Preis
Tanoshimi	Pure 5N silver conductors. Choice in WBT XLR or Cinch termination. Double EMI/RFI shielding.	0,75m	995€
	Extra Länge	0,25m	120€
Sugure	Pure extra gauge 5N silver conductors. Choice in ETI KRYO XLR or Cinch termination. Extensive recrystallization. Double EMI/RFI shielding.	0,75m	2.550€
	Extra Länge	0,25m	375€
Kangai	Pure extra gauge 5N silver and 24K gold conductors. Choice in ETI KRYO XLR or Cinch termination. Extensive recrystallization. Double EMI/RFI shielding.	0,75m	4.200€
	Extra Länge	0,25m	870€
Kinzan Cinch	Pure extra filigree 5N silver and 25% new generation 24K gold conductors for signal carrying connections. Extended and extensive recrystallization. ETI KRYO Cinch termination. Connectors are specially laser welded for point to point connection. Ultra-low capacity. Double EMI/RFI shielding.	0,75m	6.600€
	Extra Länge	0,25m	1.380€
Kinzan XLR	Pure extra filigree 5N silver and 25% new generation 24K gold conductors for signal carrying connections. XLR ground connection in filigree 5N silver. Extended and extensive recrystallization. ETI KRYO XLR termination. Connectors are specially laser welded for point to point connection. Ultra-low capacity. Double EMI/RFI shielding.	0,75	6.900€
	Extra Länge	0,25m	1.500€
Kinzan-S Cinch	100% pure extra filigree 5N silver and same amount of new generation 24K gold conductors compared to KINZAN. Extended and extensive recrystallization. NEW full silver ETI CODA Cinch termination. Connectors are specially laser welded for point to point connection. Ultra-low capacity. Double EMI/RFI shielding.	0,75m	7.200€
	Extra Länge	0,25m	1.530€

| audio manufaktur |

no sound / just music

Kinzan-S XLR	100% pure extra filigree 5N silver, same amount of new generation 24K gold conductors for signal carrying connections, ground connection in 100% extra filigree 5N silver compared to KINZAN. Extended and extensive recrystallization. NEW full silver ETI CODA XLR termination. Connectors are specially laser welded for point to point connection. Ultra-low capacity. Double EMI/RFI shielding.	0,75m	9.000€
	Extra Länge	0,25m	1.700€

Preise für Stereo-Set Phono

Serie	Beschreibung	Länge	Preis
Tanoshimi	Pure 5N silver conductors. Furutech straight or angled DIN and choice in WBT XLR or Cinch termination. Double EMI/RFI shielding.	0,75m	1.275€
	Extra Länge	0,25m	135€
Sugure	Pure extra gauge 5N silver conductors. Furutech straight or angled DIN and choice in ETI KRYO XLR or Cinch termination. Extensive recrystallization. Double EMI/RFI shielding.	0,75m	2.910€
	Extra Länge	0,25m	375€
Kangai	Pure extra gauge 5N silver and 24K gold conductors. Furutech straight or angled DIN and choice in ETI KRYO XLR or Cinch termination. Extensive recrystallization. Triple EMI/RFI shielding.	0,75m	4.560€
	Extra Länge	0,25m	870€
Kinzan Cinch	Pure extra filigree 5N silver and 25% new generation 24K gold conductors for signal carrying connections. Extended and extensive recrystallization. Furutech Carbon straight or Furutech angled DIN and ETI KRYO Cinch termination. Connectors are specially laser welded for point to point connection. Ultra-low capacity. Double EMI/RFI shielding.	0,75m	6.960€
	Extra Länge	0,25m	1.380€
Kinzan XLR	Pure extra filigree 5N silver and 25% new generation 24K gold conductors for signal carrying connections. XLR ground connection in filigree 5N silver. Extended and extensive recrystallization. Furutech Carbon straight or Furutech angled DIN and ETI KRYO XLR termination. Connectors are specially laser welded for point to point connection. Ultra-low capacity. Double EMI/RFI shielding.	0,75m	7.260€
	Extra Länge	0,25m	1.500€
Kinzan-S Cinch	100% pure extra filigree 5N silver and same amount of new generation 24K gold conductors compared to KINZAN. Extended and extensive recrystallization. Furutech Carbon straight or Furutech angled DIN and NEW full silver ETI CODA Cinch termination. Connectors are specially laser welded for point to point connection. Ultra-low capacity. Double EMI/RFI shielding.	0,75m	7.560€
	Extra Länge	0,25m	1.530€

Kinzan-S XLR	100% pure extra filigree 5N silver, same amount of new generation 24K gold conductors for signal carrying connections, ground connection in 100% extra filigree 5N silver compared to KINZAN. Extended and extensive recrystallization. Furutech Carbon straight or Furutech angled DIN and NEW full silver ETI CODA XLR termination. Connectors are specially laser welded for point to point connection. Ultra-low capacity. Double EMI/RFI shielding.	0,75m	9.360€
	Extra Länge	0,25m	1.700€

Serie	Beschreibung	Länge	Preis
Tanoshimi	COAX: Pure 5N silver conductor. True 75Ohm Cinch WBT NextGen Au termination. 98% shielding coverage.	0,75m	735€
	Extra Länge	0,25m	85€
	Gbit Ethernet: 95% Copper and 5% Silver conductors. Telegärtner termination. 100% shielding coverage. Three different EMI/RFI shielding types.	0,75m	795€
	Extra Länge	0,25m	90€
	USB: 95% Copper and 5% Silver conductors. Fully separated data and power lines. 100% shielding coverage. Two different EMI/RFI shielding types.	0,75m	795€
	Extra Länge	0,25m	90€
Sugure	COAX: Pure extra gauge 5N silver conductors. True 75Ohm Cinch WBT Ag NextGen termination. Extensive recrystallization. 100% shielding coverage.	0,75m	1.570€
	Extra Länge	0,25m	220€
	100Mbit Ethernet: Two pairs of pure extra gauge 5N silver conductors. Telegärtner termination. Extensive recrystallization. 100% shielding coverage. Four different EMI/RFI shielding types.	0,75	2.050€
	Extra Länge	0,25m	390€
	Gbit Ethernet: Four pairs of pure extra gauge 5N silver conductors. Telegärtner termination. Extensive recrystallization. 100% shielding coverage. Four different EMI/RFI shielding types.	0,75m	3.250€
	Extra Länge	0,25m	570€
	USB: Fully separated data and power lines. Both with extra gauge and filigree 5N Silver. Extensive recrystallization. 100% shielding coverage. Two different EMI/RFI shielding types used.	0,75m	1.875€
	Extra Länge	0,25m	290€

Serie	Beschreibung	Länge	Preis
Kangai	Coax: Pure extra gauge 5N silver and 24K gold conductors. True 75Ohm Cinch WBT NextGen Ag termination. Extensive recrystallization. 100% shielding coverage.	0,75m	2.235€
	Extra Länge	0,25m	435€
	100Mbit Ethernet: Two pairs of pure extra gauge 5N silver and 24K gold conductors. Telegärtner termination. Extensive recrystallization. 100% shielding coverage. Four different EMI/RFI shielding types. Ground termination system incl. ground termination wire.	0,75m	3.850€
	Extra Länge	0,25m	750€
	USB: Fully and physically separated data and power lines. Both with extra gauge and filigree 5N Silver. Extensive recrystallization. Power line uses the same topology as the KANGAI DC power cord. 100% shielding coverage. Three different EMI/RFI shielding types used.	0,75m	2.550€
	Extra Länge	0,25m	400€
Kinzan	AES/EBU: Pure extra filigree 5N silver and 25% new generation 24K gold conductors for signal carrying connections. XLR ground connection in filigree 5N silver. Extended and extensive recrystallization. ETI KRYO XLR connectors which are specially laser welded for a point to point connection. 110Ohm capacity. Double EMI/RFI shielding.	0,75m	3.600€
	Extra Länge	0,25m	765€
	100Mbit Ethernet: Two pairs of pure extra filigree 5N silver. Extended and extensive recrystallization. Triple EMI/RFI shielding. Advanced crosstalk and phase shift rejection. Telegärtner terminated. Ground termination system incl. ground termination wire.	0,75	4.100€
	Extra Länge	0,25m	750€
	Gbit Ethernet: Four pairs of pure extra filigree 5N silver. Extended and extensive recrystallization. Triple EMI/RFI shielding. Advanced crosstalk and phase shift rejection. Telegärtner terminated. Ground termination system incl. ground termination wire.	0,75m	4.950€
	Extra Länge	0,25m	1.035€
	USB: Fully and physically separated data and power lines in extra filigree 5N Silver with extensive recrystallization. Data lines use the same topology as the KINZAN Ethernet cable adjusted to the USB spec. Power line uses the same topology as the KINZAN DC power cord. 100% shielding coverage. Three different EMI/RFI shielding types used..	0,75m	4.050€
	Extra Länge	0,25m	810€

Tanoshimi	Speaker cable Pure extra gauge Copper conductors. Unique cotton protected dielectric. Furutech spades or bananas. EMI shielding.	2m	2.300€
	Extra Länge	0,5m	330€
	Jumper wires Furutech spades or banana termination.	0,15m	900€
Sugure	Extra Länge	0,15m	75€
	Speaker cable Pure extra gauge 5N silver conductors. ETI KRYO spades or bananas. Extensive recrystallization. Double EMI/RFI shielding. Ground termination system.	2m	6.600€
	Extra Länge	0,5m	1.140€
Kangai	Jumper wires ETI KRYO spades or Banana termination.	0,15m	2.500€
	Extra Länge	0,15m	360€
	Speaker cable Pure extra gauge 5N silver and 24K gold conductors. ETI KRYO spades or bananas. Extensive recrystallization. Double EMI/RFI shielding. Ground termination system.	2m	12.000€
Kinzan	Extra Länge	0,5m	2.600
	Jumper wires ETI KRYO spades or Banana termination.	0,15m	3.500€
	Extra Länge	0,15m	870€
Kinzan	Speaker cable Golden ration mixture of filigree, proprietary and extra gauge 5N pure silver, new generation 24K gold. Unique cotton protected dielectric. EMI/RFI shielding core build up. ETI Research spades or bananas termination.	2m	36.000€
	Extra Länge	0,15m	8.400€
	Jumper wires ETI KRYO spades or Banana termination.	0,15m	4.800€
	Extra Länge	0,15m	2.400€

Tanoshimi	Pure extra gauge Copper conductors. Furutech IEC and SHUKO a Copper connectors. Double EMI/RFI shielding.	1,5m	1.250€
	Extra Länge	0,5m	270€
Sugure	Pure extra gauge 5N silver conductors. ETI Legato IEC and SHUKO connectors. Double EMI/RFI shielding.	1,5m	3.500€
	Extra Länge	0,5m	660€
Sugure DC	Filigree 5N silver. Extensive recrystallization. Double EMI/RFI shielding. Free choice in connection and polarity.	1m	1.320€
	Extra Länge	0,5m	300€
Kangai	Pure extra gauge 5N silver conductors. IKIGAI audio grounding system. Extensive recrystallization. Triple EMI/RFI shielding. ETI Legato IEC and SHUKO connectors.	1,5m	4.900€
	Extra Länge	0,5m	960€
Kangai DC	Filigree 5N silver. Extensive recrystallization. Quad star build. Triple EMI/RFI shielding. Free choice in connection and polarity.	1m	1.560€
	Extra Länge	0,5m	450€
Kinzan	Mixture of filigree, our proprietary and extra gauge 5N pure Silver. Fully Silver ground wire. Extensive recrystallization. Individual and shared EMI/RFI shielding. IKIGAI audio grounding system. ETI Legato IEC and SHUKO connectors.	1,5m	9.000€
	Extra Länge	0,5m	2.475€
Kinzan DC	Extra filigree and our proprietary 5N silver in quad star configuration. Extensive recrystallization. Cotton dielectric. Triple EMI/RFI shielding. Carbon sleeving. Choice in connection and polarity.	1m	2.400€
	Extra Länge	0,5m	750€
